MESSAGE FROM THE CHAIRMAN

Overall, the Thai economy in the year 2016 slightly grew more than estimated. The main supporting factors were the government stimulus package, the government investment and expenditure and all positive factors that carry forward and increase the car sales summary. The 2016 economy was also driven primarily by the tourism sector. However, the export sector was affected by the fragile global economic recovery and the unrecovery of the private investment sector. Moreover, the household debt that remained relatively high led to the decrease of household expenditure.

In the year 2016, Land and Houses Bank Public Company Limited had well expanded, the bank's total asset were Baht 209,695 million or 5.9% growth from the previous year, total loans were Baht 157,494 million or 5.7% growth from the previous year, with a good quality of loan and low ratio of NPL were 1.76% of total loans. The bank developed services and

products to provide good services and customer satisfaction and also increased the service channels via the bank branches which increased from 126 branches in the year 2015 to 133 branches in the year 2016 and the bank's branches has located in Bangkok boundary and other regions across the country. In addition, the bank satisfied the young generation needs that prefer to conduct the transactions via digital channel and the bank has opened the transaction services via smartphone or LH Bank M-Choice to provide the convenient and fast services that can be used every day at anytime and anywhere.

The bank's board of directors always recognizes the significance of good corporate governance, business transparency, justification and accountability as well as sustaining the utmost benefits of all stakeholders and the whole society and manages the business with honesty to enrich the ability of competition and to be a base of sustainable growth of the bank.

Finally, on behalf of the bank, I would like to thank all shareholders, investors, customers, public and private financial institutions and government agencies for trust and continued support that have been placed in Land and Houses Bank Public Company Limited. The bank will commit to develop new business opportunities with offering the products and services to satisfy customers needs and wants and be confident that the bank will grow with high quality.

(Mr. Anant Asavabhokhin) Chairman

COMPANY PROFILE

Land and Houses Bank Public Company Limited is a financial institution which positions itself as a new choice for consumers. It originated from the inspiration of a leading group of property developers-Land & Houses Public Company Limited and Quality Houses Public Company Limited. Listed on the Stock Exchange of Thailand, the two companies are engaged in the development and management of real estate projects and together command the largest market share. Apart from their strong financial positions, they both are committed to management with good corporate governance. In 2004, the government had announced a financial institutions development plan. Viewing this as an opportunity to diversify its business to be more comprehensive, the group by Land and Houses Credit Foncier Public Company Limited of which 43% of paid-up capital was held by Land & Houses Public Company Limited a plan to the Ministry of Finance to set up a commercial retail bank on December 19, 2015.

On June 19, 2009, LH Financial Group Public Company Limited submitted an application to the Bank of Thailand to establish the financial group. Then on October 28, 2009, the Bank of Thailand allowed the company and Land and Houses Bank Public Company Limited to set up a financial business group, with the company acting as the holding company, the bank as the subsidiary under the solo consolidation group, and Land and Houses Fund Management Company Limited as a subsidiary outside the solo consolidation group.

In 2010, the bank took over the United Asset Management Company Limited which it later renamed Land and Houses Fund Management Company Limited the bank held 99.99% of paid-up capital in the company.

On December 16, 2011, the Ministry of Finance, by the recommendation of the Bank of Thailand, approved an upgrade of Land and Houses Retail Bank Public Company Limited the company's subsidiary, from a retail bank into a full commercial bank under the name of Land and House Bank Public Company Limited and has official opening on December 19, 2011. As a result of the change, the Bank could start operating a complete commercial banking business and offer a more diverse range of commercial banking services to its customers.

For restructuring the Land and Houses financial business group, on March 1, 2016 Land and Houses Bank Public Company Limited has sold ordinary shares of Land and Houses Fund Management Company Limited to LH Financial Group Public Company Limited at the total amount of 2,999,995 shares or 99.99% of the issued and paid - up shares.

| • North | 7 | branches |
| • North East | 19 | branches |
| • East | 11 | branches |
| • West | 7 | branches |
| • South | 15 | branches |

Number of branches expanded in each year

Products and Services of the Bank

The bank has continuously developed products and services meet a variety of customer needs and wants. The bank's products and services can be divided into 4 main categories as follows;

1. Deposit Service

The bank provides a deposit service for individuals, juristic persons, non-profit juristic persons, government agencies/state enterprise, funds, cooperative, and domestic financial institutions. There are various types of deposits, as follows:

Saving Deposit

- With its high interest rate and anytime unlimited deposits and withdrawals, this saving account is filled with convenience without compromise on interest income that is calculated every day for you.

- Biz Saving Account for juristic persons with its high monthly Interest rate and Bonus + 0.10% when the outstanding balance per month is more than Baht 1,000,000 this saving account is filled with commercial convenience by using together with current account.

- Saving Super Shield for individual customers aged 15 years to 70 years. The bank offered the maximum benefit up to 25 times of current deposit saving account balances by covered in case a customer's death from accident in 24 hours. Customers can deposit a minimum initial deposit is Baht 1,000, and the more customers deposit, the more customers gain the benefit and coverage without health check and without insurance premium payment.

• Non-Fixed Deposit is one type of saving deposit with high interest rate. Minimum deposit of 5,000 Baht must be maintained in this account at all times. This account is allowed for deposit and withdrawal anytime, providing more liquidity and convenience.

• **Current Deposit** is designed to certainly boost business liquidity, daily interest earnings and easy to make a deposit and withdrawal via cheques and ATM card.

• Fixed Deposit and Fixed Deposit Receipt (FDR) are a fixed deposit to assure customer's future financial stability through our offer of multiple tenors together with attractive interest rates. The deposit shall be repaid upon maturity.

• Tax Free Deposit needs to be deposited in equal amount every month. According determined period of the bank such as 24 months or 36 months and total deposit amount is not more than Baht 600,000.

Competitive Strategy of Deposit Service

The bank has continued to develop and design new financial products, which are suitable for occupations and financial positions of various customer groups, to provide saving alternatives and meet different customers' demand thoroughly, with attractive returns and deposit periods that are consistent with customers' demand. This will boost competitive advantage of the bank's deposit products. In addition, the bank holds various recreational activities to reward customers for maintenance of deposit customers, which have well been accepted by customers.

The bank's branches are main channels for expanding deposit customer bases, providing services for customers to engage in various transactions, and giving advices to customers for their convenience and satisfaction. The bank has launched a series form of deposit product include a benefit project, new promotion and customer relationship project (Loyalty Program) that emphasize to respond to customer demand for attract and increase customer to use our bank branches. It's an opportunity for present the product and service (Cross-selling) for to expand fee income.

The bank determines interest rates by considering internal and external factors that may have an impact, including the bank's costs, interest rate trend, economic direction, and competitive condition of deposit mobilization. The bank does not focus on competitive interest rate, rather on satisfactory provision of products and services in order to satisfy all groups of customer.

2. Loan Service

The bank categorizes its loan services into 3 business sectors, i.e., loan service for big corporate &corporate, loan service for SMEs & SSME, retail loan, with details are as follows;

1. Loan Service for Big Corporate & Corporate

Big Corporate & Corporate loan is targeted to serving business purposes of Big Corporate & Corporate, covering working capital as well as production capacity expansion through capital expenditure for buildings, plants, machines, and equipment. There are short-term and long-term loans available that are suitable for the customer's business nature.

2. Loan Service for SMEs & SSME

SMEs & SSME lending is targeted to serving business purposes of SMEs & SSME, covering working capital as well as production capacity expansion through capital expenditure for buildings, plants, machines, and equipment. There are short-term and long-term loans available that are suitable for the customer's business nature.

By classifying loans under purpose of the lending are as follows:

- Short-Term Loan

is a lending service to raise liquidity and manage cash flows. It can be withdrawn and repaid within the required limit throughout the lending term not more than 1 year, such as overdraft (O/D) and short term loan.

- Long-Term Loan

is a lending service to develop medium to long term business with clear purposes for the use of loans and clear repayment period, in line with project progress or cash flows, to support business owners for their investment in various projects such as business expansion, factory/office construction, purchase of fixed asset including machinery and vehicles, and real estate investment including land purchasing for factory construction and residence purchasing.

-Factoring Loan

is a financial services, one of the transaction is similar to a short-term loan for increase in liquidity and working capital management for entrepreneur. By the assignment of the receivable to the bank that agrees to purchase invoices from a business, customer must to send commercial documents to the bank such as a commercial invoice, purchase order, bill, payment receipt. The bank would be paid according to the agreed ratio such as the bank can provide 70-80% of the invoice value, purchase order, bill, payment receipt etc., without having to provide real estate or similar assets as security. Upon receipt of payment from your customers you receive the remaining balance back.

- Commercial Hire Purchase Loan

is a loan for purchasing vehicles for commercial in logistic business, car-rent business, etc.

3. Retail Loan

is a retail loan service for individuals to mainly serve consumption purpose, which can be divided by lending purposes, as follows;

Housing Loans

- Saen-Sabai Housing Loan enables customers to get their new house through either buying a new one, purchasing a second-hand one for all projects, or even constructing a new one.
- Housing Loan Refinance is a loan for borrowers to refinance the loan from another bank (refinance), with the offer of additional loan for renovation, decoration, and furniture purchase with special offers.

• Multi-Purpose Loan is indeed applicable for many things from house repair and maintenance, house expansion, business matters, to several other purposes as you wish. The loan's collateral can be a wide range of freehold assets including detached houses, townhouses, twin houses, etc. Freedom belongs to the borrowers to choose which type of loan they want.

• **Personal Loan** is applicable for providing the convenience of modern living such as consumption loan and insurance loan for credit line coverage etc.

• Education Loan can be tailor-made to suit a variety of educational objectives from compulsory, fundamental levels to more advanced levels, from short-term courses to doctoral degree in both local and international educational institutions.

Competitive Strategy of Loans Service

The bank categorizes customers into different groups to continuously develop good relationship with all customer groups and to propose complete financial products and services to meet demand of each customer group. The bank shall consider loan type, interest rate, credit type, repayment period suitable for each customer, with fast process of loan approval.

To increase SMEs customers, the bank focuses on strategy of extending loans to existing customers with good payment history to increase business opportunity and maintain existing customers to be with the bank over long term. For new customers, the bank targets to extend loans to customer group with good financial status. The banks are used strategy by all bank 126 branches might introduce bank's SME loans and giving the existing customers of banks offering loans to friends or business partner.

Strategy of housing loan extension is to get access to target groups by expanding branches into potential areas of housing loans and going into such areas by the bank's marketing officers, who will focus on customers of housing projects on potential locations and quality housing projects that can be resold at good prices and key marketing strategies of the bank include good and fast service quality, good relationship with business owners and salesperson of housing projects, and arrangement of promotional programs on special occasions.

3. Electronic Services

The bank focuses on electronic services. At present, Thailand and Thai society is entering

the digital age. Therefore, the transactions or services from now on will focus on primarily digital and continuously expand electronic services to support the financial transactions in the digital age such as;

• Automatic Teller Machine (ATM) is a withdrawal services, fund transfer within the bank, fund transfer to the account of other bank, and payment for commodities and services. The bank's ATM can accept ATM card of all banks including Japan Credit Bureau and Union Pay International to provide service for businesspeople and traveler in Thai Baht cash withdrawal.

As of 31 December 2016, there are 203 Automatic Teller Machines, increasing by 13 machines from 2015.

• Internet Banking (LH Bank Speedy) is a service available for customers to provide convenience for conducting financial transactions every day, everywhere, at any time. LH Bank Speedy has double security system to assure security with easy-to-use menu and to make sure for financial transactions. It provides services of fund transfer within the bank,

fund transfer to the account of other bank, and payment for commodities and services, loan payment, checking the cheque status, stop cheque, checking fundspurchase through the bank, account status checking and searching the bank branches. The Bank will send message to confirm results of all transactions with customers for increasing security.

• Funds Transfer Service is a domestic funds transfer service, allowing customers to transfer funds over the counter between one's own accounts, to other accounts of the bank, to the accounts of other banks and automatic transfer system (ATS). It also provides a third-party funds transfer service via BAHTNET.

• Online Retail Funds Transfer Service (Couter-ORFT) is a service that customers can conduct transactions through the bank's counters. The service provides convenience and fast transactions for customers to conduct a transfer to the transferee's account at other banks.

• LH Bank CDM Service is a service that customers can make a deposit without ATM card and passbook everywhere and at any time including making fund transfers from their account within the bank and other banks.

• Cash Management Service is a financial service that is convenient and fast, reduces document work, reduce management costs and increase efficiency in business management, such as;

1. Salary Payroll, to transfer large amounts items with single command.

2. Bulk Payment, to transfer large amounts items with single command.

3. Bill Payment

The number of directors of the bank is determined at the shareholders' meeting but shall not be less than five of the total number of the bank's directors and independent directors not less than three or one third.

- Directors Nomination

1. In voting to elect the directors, the shareholder meeting shall elect the directors by cooperating to the rules and methods as follows:

- (A) One share is entitled to one vote.
- (B) Each shareholder then may cast his votes by casting all of his votes for one candidate or more candidates as director(s) by non-cumulative voting.
- (C) The candidates are ranked in descending order, from the highest number of votes to the lowest, and are appointed as directors in that order until all the director positions are filled. Where the votes of candidates are tied, the chairman of the meeting has the casting vote.
- 2. Retirement from the position of directors
 - (A) Retirement by rotation
 - At every Annual General Meeting of Shareholders, one-third of the directors shall retire by rotation.

- For directors who retire by rotation in the first and second years after registering the company, a draw must be held to determine which directors shall be retired. For subsequent years, the directors who have served the longest terms shall retire.
- Directors who are retired by rotation can be re-elected to resume the position.
- (B) Death
- (C) Resignation
- (D) Lack of qualifications or having forbidden qualifications by law
- (E) The shareholders vote at a meeting for his resignation with a vote of not less than three-quarters of all shareholders with voting rights present and of not less than half of their shares which held by shareholders attending the meeting and entitled to vote.
- (F) Court order
- 3. If a vacancy on the Board of Directors occurs for reasons other than the normal rotation, the remaining directors shall elect a qualified person with no forbidden qualifications under the law on public companies to replace him at its next meeting unless the term of the director who vacates office is less than two months. The substituting director shall serve only for the remaining term of the director he replaces. Such resolution by the Board of Directors shall require the votes of not less than three-quarters of the remaining directors.

Independent Directors Qualifications

Nomination and appointment of the independent directors must have qualifications that are required by the company and consistent with the practices of good corporate governance policy, which is stricter than those policies notified by the Capital Market Supervisory Committee and the Bank of Thailand, with detailed qualifications of independent directors, as follows:

The independent directors qualifications must be a director who has no business interest or has no benefit related to the company, which may affect his or her independence to express opinion. The company defines the qualifications as follows;

(1) Not hold shares more than 0.5% of the total number of voting shares of the company, parent company, subsidiary, associated company, or any juristic entity that may have conflict of interest with the company, whilst the number of shares held by any related person of such an independent director must also be counted.

(2) Not being and have not been a director participating in management role of the company, the employees or the advisors which receive regular salary from the company, and not be and have not been a person having controlling power over the company, subsidiary, or associated company, or a subsidiary in the same level of the company, or juristic entity with conflict unless such independent director has not been the person referred to above at present and for the past 2 years.

(3) Not being a person having relationship either through blood lineage or legal registration as father, mother, spouse, sibling and child, including a spouse of a child of the executives or major shareholders of the company or subsidiary, or of any person having relationship or being relatives of the top executives or major shareholders of the company.

รายงานประจำปี ๒๕๕๙ ANNUALREPORT 2016

(4) Not having and have not had any business relationship with the company, parent company, subsidiary, associated company, or juristic entity that may have conflict of interest, in the manner in which his/her independent discretion might be affected, and not be and have not been a major shareholder, a non-independent director or a management executive who has business relationship with the company, parent company, subsidiary, associated company and juristic entity with conflict of interest with the company, unless such an independent director has not been a person referred to above at present and for the past 2 years. Business relationship referred to in the first paragraph above shall mean to include any ordinary course of business or trade for business engagement purpose, any lease taking or lease out of any property, any transaction relating to asset or service, any financial support or acceptance of financial support by way of either borrowing, lending, guaranteeing or collateral providing or any other manner similar thereto that could result to an obligation required to be performed by the company or the party thereto in an amount of 3% or more of the net tangible asset value of the bank or 20 million Baht or more, whichever is less. In light of this, the method for calculation of the value of connected transaction pursuant to the Capital Market Supervising Committee's Notification, Re: Regulations in respect of an Entering into a Connected Transaction shall be applied mutatis mutandis for the purpose of calculation of such amount of debt of the applicant, provided that the amount of debt incurred during the past 1 year prior to the date on which such a business relationship with such person exists;

(5) Not being and have not been an auditor of the company, parent company, subsidiary, associated company, or juristic entity that may have conflict of interest, and not be a major shareholder, a non-independent director, a management executive or a partner of any auditing firm in which the auditor of the company, parent company, subsidiary, associated company, or juristic entity that may have conflict of interest is working, unless such an independent director has not been a person referred to above at present and for the past 2 years.

(6) Not being and have not been a professional advisor, including legal or financial advisor who obtains fee more than 2 million Baht a year from the company, parent company, subsidiary, associated company, or juristic entity with conflict of interest with the company. If such professional service provider is a juristic entity, it must not be or has not been major shareholder, a non-independent director, a management executive or a partner of any of such professional service provider firm, unless such an independent director has not been a person referred to above at present and for the past 2 years.

(7) Not being a director appointed as representative of the company's board of directors or a representative of a major shareholder, or a representative of a shareholder which is a related person of the major shareholder.

(8) Not having any other characteristics that prevent the exertion of independent opinion concerning the company's business undertaking. After having been appointed as an independent director, an independent director may be assigned by the Board of Directors to take part in the collective decision making process of the company, parent company, subsidiary companies, associated companies, subsidiary company in the same rank, or a juristic entity that may have a conflict of interest by making a decision in the form of collective decision.

RISK FACTORS

1. Risk Management in Perspective

Land and Houses Bank Public Company Limited has determined the strategies plan and business plan for the next 3 years following the vision and mission. The bank considered the business environment consists of economic conditions, domestic and international politics including other factors such as strength, weakness, opportunities, risk, achieve factor and any important issues in operation which the executives will bring the factors in considering for determine the operation plan in each year and regularly review the operation plan for catch up with situation and environment changes.

Risk Management Overview

The bank sets the framework and strategies in operating business to grow based on the efficient risk management along with creating the stable benefits to the organization. The bank controls and supervises the risk management systematically and efficiently. The risk-management structure and policies have been defined clearly in writing with the main goal being the prevention and management of risks.

Moreover, the bank also pays attention to the revelation of information about the risk and sufficiency of fund to public following the principles and guidelines set within the framework of the bank of Thailand's supervision guidelines.

Risk Management Policies

The risk management policies have main objectives to supervise and oversee transactions within and without the financial business group to have acceptable risks and adequate internal control system. In conducting transaction, analysis procedures have been put in place to manage potential risks appropriately and adequately. The directors of the bank will supervise the bureaus in the bank to perform the operation following the policies related to the risk management as follows:

1. Credit Risk Management Policy The bank specifies the credit risk management policy and criteria in the credit consideration for controlling, preventing, and mitigating the risk possibly occurring from the transaction in giving credit for the balance between the risk in giving credit and the benefits. The policy is regulated to have the goal and process suitable for the risk of each type of credit. This is for determining the clear goal in the operation and the flexibility in improving the policy within the levels of acceptable risks.

2. Market and Liquidity Risk Management Policy This can be the guidelines for the investment in the securities of bond and the risk management in the interest as well as the management of appropriate liquidity for serving the repayment of due liabilities and obligations. This includes the preservation on the level of revenues from net interest following the bank's goal. There is the suitable structure of assets and liabilities with the sources of fund or assets ready to be changed into cash sufficiently for serving the risks both in normal condition and crisis within the levels of acceptable risks in business operation. **3.** Operational Risk Management Policy The bank regulates the policy in operational risk management covering the risk management in information technology, service used by the outsiders, process of new product launching, continually conducting the business plan, and report on the operational damage in accordance with the code of practice of Bank of Thailand and Basel Committee on Banking Supervision (BCBS).

4. Policy in assessing the risk and the sufficiency of fund and policy in testing the crisis This is for making the bank have sufficient fund for serving the significant risks both in normal condition and in crisis. The policy focuses on the process of risk management and the assessment on the sufficiency of fund systematically for maintaining the level of fund to be sufficient for the present and the future.

5. Policy in revealing the information of fund reservation and risk management This is for being the guideline in revealing the information of fund reservation and risk management, for example, information of fund structure and sufficiency of fund as well as the process in risk management. The stakeholders of the bank receive the information which is correct, complete, and can be used in the analysis and decision making for the transaction with the bank including the presence of transparency and the risk management in the business operation of the bank in the entire picture.

Risk Management Structure

The bank has defined organizational structure to manage risk and to be consistent with good internal supervision and control policies as follows:

1. The Board of Directors has the duty and responsibility in supervising the management department in regulating the policies, process, and control on the types of risk management as well as approving such policy including revising the strategies, real practice, and policy in such subject regularly.

2. The Executive Directors Committee has its duty to propose policies and strategic business plan to the board of directors, examine the company's operation in keeping with the business plan, evaluate the company's performance to analyze strengths, weaknesses and solutions.

3. The Audit Committee has the duty and responsibility in observing and ensuring the policy and the risk management to the implementation with efficiency and effectiveness to the organization.

4. The Risk Management Committee has the duty and responsibility in regulating the policies and strategies of risk management covering the risks as specified by the Bank of Thailand as well as assessing, observing, and monitoring the conformity to the approved policy.

5. The Asset and Liabilities Committee has the duty and responsibility in managing and recommending the liquidity, assessing, observing, and conducting the plan for the risk in the interest rate and liquidity as well as setting the investment plan and monitoring the operation following the plan.

6. The Sub-Operational Risk Management Committee has the duty and responsibility in managing the risks in the operation and related policies, monitoring the whole operational risk, and continually conforming to the risk management framework and business operational plan. The committee also considers and specifies the appropriate solution in case of finding the error or the over-acceptable risks, reports the risk status, and the change in significantly operational risk status to the Risk Management Committee.

Moreover, the Bank also has other Committees for supervising and controlling specific risks, for example, Information Technology Committee, Credit Committee, Liability Development Committee, etc. The Risk Management Department is responsible for managing the risk in the entire picture of the Bank and directly report to the Risk Management Committee. There is the Audit Department responsible for assessing the sufficiency of internal control system, including the verification and reliability of financial reports along with the conformity to the government regulations and rules and directly report to the Audit Committee.

Risk Factors

Banking business is directly linked to the fast-changing financial market and the local and global economies. Furthermore, business environment, whether it involves regulatory changes, adjustments by competitors, and political participation affects the operation of a banking business.

Risk management in line with the guideline of the Bank of Thailand involves 5 areas: strategic risk, credit risk, market risk, liquidity risk and operational risk and the bank has the policies and procedures to manage the risks as follows:

1. Strategy Risk

Strategy risk refers to the risk originated from inappropriate formulation of strategies and the inability to execute the laid-down strategies, as well as disharmony of strategies, policies, objectives, organization chart, competition and resources as a result of internal and external factors. It may affect the competitiveness, revenue and capital funds of the bank.

1.1 Risk incurred by economic and competition uncertainty

Overall economic uncertainties may affect credit growth and quality, the bank prepares its business plans, annual budget and capital funds estimates. Executives of each unit participate in the preparations of such plans and estimates to ensure they are appropriately in line with the bank's strategies and strategic risk controls of the Bank. The executives of different departments share their opinions and propose the plans to the Board of Directors of the Bank for approval. In any case, the bank will semiannually review its business plans and budgets to suit the changing economic situation. The Executive Board will regularly follow up on the implementation of each department, comparing it with the objective-oriented annual plans regularly.

1.2 Risk incurred by inadequacy of capital funds

The changing of capital fund supervision under Basel III rules, in accordance with the Basel Committee on Banking Supervision (BCBS), which covering capital fund and liquidity risk management for the bank and the financial business group to control with both quantity and quality and determines for the bank and the financial business group must have to increases the capital fund reservation sufficient for support in normal and critical circumstances including it aim to strengthen capital fund position.

Under Basel III framework, the bank and the financial group have to maintain a minimum ratio of total capital to risk-weighted assets were not be less than 8.50%. Additionally, the ratio of Tier 1 capital to risk-weighted assets cannot be less than 6.00% and Common Equity Tier 1 to risk-weighted assets cannot be less than 4.50%.

Moreover, The Bank of Thailand has regulations for financial groups to maintain their Capital Buffer in order to support their loss in a crisis (conservation buffer) as well as a commercial bank by determining the ratio of Capital Tier 1(retained earnings and common stock) to risk assets by 2.5% more. The financial groups are allowed to gradually increase the ratio by more than 0.625% each year starting from January 1, 2016 to January 1, 2019.

As at 31 December 2016, the total Capital to risk weighted asset ratio (BIS)'s of the financial group was 13.75%, Tier 1 was 10.24% and Tier 1 ratio of the Common Equity was 10.24% which higher than the BOT's minimum capital ratios.

Accordance with the Basel III framework, the bank's total capital funds maintained under the laws were Baht 22,330.75 million, which can be divided into tier 1 capital funds of Baht 16,628.92 million or 74.47% of total capital funds before deduction and tier 2 capital funds of Baht 5,701.82 million or 25.53% of total capital funds and the rate adequate for the business operation and business growth promotion following the lay-down goal and strategies under normal condition and crisis possibly occurring from the economic uncertainty.

Moreover, the bank also assess the risk and the adequacy of fund (ICAAP) for certifying the risks following the rules of fund supervision of commercial banks as stipulated by the bank of Thailand. This can ensure that the bank can manage the fund efficiently, have the strong fund status to serve the risks both in normal condition and in crisis, and have adequate fund for serving the business expansion.

2. Credit Risk

Credit/default risk is a chance or probability in which counterparty cannot fulfill the agreed obligation, including a chance where the counter-party's credit risk will be downgraded and the deterioration of the quality of credit or investment where prices cannot be adjusted to offset the higher risk. These scenarios may affect earnings and capital fund of the bank due to the following external factors such as the change of economics, laws, rules and regulations and internal factors such as lack of regulatory control, lack of pursuit to the debtor complies with the terms of the agreement, loan process and reviewing of loan inefficient etc. And the transaction to be consistent with credit risk consists of loans and similar transactions, transactions related with obligation to delivery of assets or debts to the bank and transactions with debt securities.

Credit Risk Management Tools

The bank has developed tools to screen and classify the risk levels of debtors, both individuals and juristic persons, to facilitate efficient credit approval. These tools are:

- Credit Scoring Model is the tool to classify and designate the risk levels of individual borrowers. The model used by the bank in considering credit at present was developed based on the fundamental statistics of its customers, together with the discretion of experts (expert base).
- Credit Rating Model is the tool to screen and classify the risk levels of juristic persons. The bank has also kept track of the accuracies and efficiencies of the tools it has used in considering loan extensions by following up on the results of using the models and analyzing their efficiencies regularly for steady development and improvements of the credit risk management tools so that they can support its operations continually.

Credit Risk Management Process

The bank has put in place a credit risk management process where checks and balances are incorporated through a clear separation of duties among marketing officers, credit-risk analysts, collateral appraisal and operation officers. Furthermore, in considering approving credit, the bank has set up independent units; namely, the Credit Risk Analysis office and Retail Credit Risk Analysis office to supervise and give opinions on risk elements that may be incurred from extending credit to each customer. This is to ensure that the credit the bank approves has been considered and screened prudently including determine the specialized agency review the information for approving credit, monitoring compliance with the loan terms, promotion of new credit quality and treatment the original loan efficiently for more effective control monitor and control credit also, provide credit training for credit officers to develop the efficiency of credit marketing to acquire the high- quality loan.

Credit Portfolio Management

The bank pays attention to the quality of its credit customers, categorized by type of business and concentration of credit based on the different types of businesses in its credit portfolio. In doing so, the bank tracks change in its credit portfolio in various dimensions such as the quality of its credit portfolio by credit and business type and the proportion of outstanding credit extended to the top 20 largest credit customers in the bank's capital fund for determine the quality of its credit portfolio and potential risks.

Credit Risk Consists of 3 Components;

2.1 Risk Incurred from Deterioration of Credit Quality

The most significant risk of the bank is a result of the rise of NPLs. In addition, the bank has to increase its reserve allowance for Doubtful Accounts which directly impact to the bank's profits and Capital adequacy. The bank has laid down a process to control non-performing loans by emphasizing the credit management efficiency from the more stringent credit-approving process. It involves the determination of the criteria in approving retail credit to serve as a standard in approving credit and keep the use of discretion by officers at a minimum, the setting of minimum down payment for housing loans of high-risk customers and the tightening of minimum standards of loan applicants' qualifications in each area, moreover, the bank has improved and developed tools for screening and categorizing risk levels of the bank's debtors to mitigate the risk from credit-approving process. The bank provides the department that responsible to monitor loans/debts.

2.2 Risk Incurred from Concentration of Credit

The bank realizes the risk from the concentration of credit both in the large borrower concentration and sector concentration. The bank stipulates the risk limitation and warning level in order to control for avoiding any concentration of credit significantly as well as reporting to the Risk Management Committee of the bank regularly.

2.3 Risk Incurred from Devaluation of Value of Guarantee in the Type of Real Estate

Most of bank's credits are the credits with guarantee calculated as 63.18% of the credit fund. The guarantee in the type of real estate is calculated as 96.89% of all guarantees. When any event occurs causing the market of real estate slow down, the bank may suffer the loss in the part that such real estate guarantee is devaluated. Therefore, the bank has the risk management incurred from the devaluation of value of guarantee. The appraisal policy was set to review the price of guarantee regularly followed in the period of time to classify the assets. In addition, the assets classification consists of 5 categories as follows; Pass, Special Mention Loans, Sub-Standard Debts, Doubtful Debts and Doubtful of Loss. The bank also, annually, reviews the property appraisal cost which gained from the repayment of loans or purchase at public auction. The period to reviews the property appraisal cost as mentioned is conform to the bank of Thailand notification for reflecting the actual value of guarantee following the current condition.

3. Market Risk

Market risk refers to risk arisen from movements of interest rate, foreign exchange rates and prices of instruments in the money and capital markets which negatively affect the earning and capital of the bank. Market risks can be classified into 3 types: price risk, interest rate risk and foreign exchange risk. The bank has a policy to control and manage all of these risks at appropriate levels in accordance with its risk management policy.

3.1 Price Risk

Price risk is a risk where damage may occur as a result of changes in interest rates or prices of securities. At present, the bank is exposed to minimal price risk since it has no policy to invest in high-risk securities such as derivatives.

Most of the bank's investments are for the purpose of maintaining liquid assets as required by the Bank of Thailand. As such, it has chosen to invest in low-risk securities, most of which are issued by government agencies and state enterprises.

As at 31 December 2016, the net investment was Baht 49,978 million divided into available for sale investment with the fair value of Baht 4,169 million and the held to maturity debt securities of Baht 45,804 million. Moreover, there was also general investment which was the equity instrument which was not in the domestic market demand for Baht 5 million.

To manage price risk in compliance with the Bank of Thailand's notification, the bank uses the Value-at-Risk (VaR) Model to measure the maximum loss at each different level of confidence if the securities are held within a specified period. The bank uses the calculated risk values as a guideline in determining the acceptable risk levels. Different circumstances that may cause security prices to plunge sharply are simulated and stress tests are conducted to estimate the potential damages from the crisis and emergency risk.

3.2 Interest Rate Risk

Interest rate risk refers to risk arisen from movements of interest rates which may result in changes in the value of financial instruments value or volatilities of earnings or shareholders' equity value, both on- and off-balance sheets. Interest rate risk is a result of the structure and terms of rate-sensitive assets, debts and shareholders' equity and a timing mismatch in fixing new interest rates for assets, debts and off-balance sheet items. An asset and debt management committee is tasked with monitoring and supervising the interest rate risk arising from the mismatches in the interest rate structure by designing an appropriate interest rate structure for each period. It also supervises to ensure the interest rate structure is working as planned and controls the proportions of assets and debts with different terms at acceptable levels.

Nonetheless, the bank closely monitors the market and interest rate situations and prepares period of changes in interest rates of assets and debts. It also emulates net interest income to determine impacts on the Bank's earnings within the maximum risk level defined by the market and interest rate risk management policy.

3.3 Exchange Rate Risk

The bank has provided Currency Exchange trading (buying and selling) and also set standard for currency balance at the end of the day under the Bank of Thailand's regulations, thus, the bank has no significant exchange rate risk.

4. Liquidity Risk

Liquidity risk means risk resulting from the bank's failure to pay its debts and obligations when due because of its inability to convert assets into cash, or its failure to procure enough fund by schedule and at appropriate costs, a scenario which could cause damage to the bank. Sources of liquidity risk include internal and external factors. Internal factors hinge on the structures of assets and liabilities and reserve requirement to support demand. External factors include market liquidity and a lack of depositors' confidence. The bank has the tools for measuring and observing the risk in the liquidity and specifying the appropriate warning level in the risk management policy of the bank, development of tools and methods to measure risk continuous to be consistent with guidelines of the Bank of Thailand and the principle international standard of risk management.

The bank is able to efficiently plan and manage its liquidity risk at an appropriate and adequate level, enabling it to repay its debts both at present and in the future should the need arise. In addition, the bank issues new products to raise funds both for the short and long terms in line with market conditions.

5. Operational Risk

Operational risk refers to risk arising from damages which is the result of inadequacies or mistake of work processes, human resources, work systems of the bank or external incidents including legal risk (e.g. the risk from litigation, prosecution, fine penalty, etc.) But not include the strategic risk and reputation risk. The bank has clearly defined the framework of its operational risk management policy. It also has good internal control system and has published an operating manual so that every employee understands the workflow and can perform their duties efficiently. Procedures have been laid down for business analysis, risk evaluation and risk monitoring, etc.

Moreover, the bank has developed its processes and tools to manage operational risk such as incident report on the purpose of filling data on damages, whether they are monetary or non-monetary, past or preventable ones and other incident report, have been collected and used for improved the operation and guideline control to prevent them from recurring.

The bank allocated all departments to perform risk and control self-assessment (RCSA). Each department have to specify its risky points of the operation and a loss report prepared to identify risky areas in the operating process of each unit and to assess whether the Bank's existing internal control system is adequate and appropriate for the control of those risks. The data are also processed to determine key risk indicators to follow up on the risks. According to its growth, the bank has realized related to the operation risks from both internal and external fraud , therefore, fraud risk assessment has been set to monitor its operations start from the business units that fraud risk tends to be happened and using these findings as data to set guideline for protecting and approaching fraud risk.

Moreover, the Bank determined the policy on using external services and releasing the new products in order to specify, measure, and follow up that operation risks. The risk management department can help in considering and give the opinion supplementary before the use of service from the outsiders or the launching of new products.

The bank has business continuity plan for emergency use such as in the event of contingent losses and disasters for the continuity of the bank's operations or reduced disruption to the operations of the bank in an acceptable level. All departments have been involved in the preparation of the plan and revised the plan every year. Moreover, the bank has rehearsed the Core banking Restoration and the Annual Operations on important transaction every year for ensure the bank can operate under crisis condition and efficiently.

The bank regularly develops its personnel to enhance the efficiency of the employees' performances. The bank develops the communication channel on the knowledge about the operational risk management in the form of E-Leaning so that the executives and employees will have the understanding and awareness of the operational risk. Also employees are sent to attend seminars conducted by external organizers. Internal seminars are also held as needed by inviting conductors with expertise and knowledge to educate and enhance the skills of the employees.

THE EXECUTIVE DIRECTORS COMMITTEE'S REPORT

(Mr. Rutt Phanijphand) Chairman of Executive Director

MANAGEMENT DISCUSSION AND ANALYSIS

1. Overview

2016 Economic Overview and Outlook in 2017

2016 Economic Overview

In 2016, the Thai economy expanded at a greater pace than the previous year, mostly on account of higher-than-expected growth in the first half of the year that was particularly contributed by private consumption. Public spending-both government consumption and investment-continued to expand well and remained an important economic growth driver. However, the tourism sector, which is a key driver of the Thai economy in recent periods expanded at a somewhat slower were affected by the recent government's measure to curb illegitimate tour operators.

For the banking sector in the year 2016, loan growth continued to decelerate from the previous year, in both corporate and consumer loans. As the result of the slowdown in credit demand amid the gradual and uneven economic conditions, especially the sluggish recovery of private investment. Moreover, the commercial banks remain cautious in extending credit after the loan quality worsened. The ratio of non-performing loans to total loans (NPL ratio) rose from 2.55% at the end of 2015 to 2.83% at the end of the year 2016. However, Thai commercial banking system's remained stable with high level of loan loss provision and a capital fund to facilitate credit expansion going forward.

Economic Outlook for 2017

The Thai economy in 2017 is projected to expand by 3.0% - 3.5%, at a rate close from the previous year, due to

1. The strong expansion of public spending on the back on the progress of transport infrastructure development plan and the additional stimulus measure.

2. The gradual improvement in household income from both a pickup in export-related earning and a stronger recovery in farm income which will contribute to an increase in household consumption.

3. The gradual recovery of the merchandise exports. While the key risk factors for the Thai economy in 2017 are a fragile global recovery and uncertainties in economic and monetary policies of the major advanced economies that could add volatility to global financial market and may have an impact on the real economy.

Commercial banking industry is expected to perform better in accordance with expanded loans due to economic recovery from acceleration of infrastructure investment and other economic stimulus packages by government. However, large businesses are raising funds through debenture with lower cost, including risk from non-performing, especially a concern on loans for SMEs affected by export decelerated in recent period. In addition, the fragility of household purchasing power and low confidence of business investment may lead to limited growth of commercial bank's profits.

Land and Houses Bank Public Company Limited formulated its strategies based on advantages of various trading partments in development of bundle products or value added product or service development to meet customer demand and approach target customers. In addition, the Bank formulated marketing strategy in the area that competitors were unable to reach by continuing product and service differentiation, introduction of products with remarkable prices and diversity to keep existing customers and expand new customers. For competition in loan approvals, the bank offered competitive interest rate against other commercial banks and suitable for market condition.

Overview of Commercial Banking Industry and Competition in 2016 and Outlook in 2017

Overview of Commercial Banking Industry and Competition in 2016

In 2016, overview of commercial banking industry slightly expanded and grew in the last quarter of the year. Loan growth of commercial banking industry expanded by 5.7% or up 4.8% compared to last year. Commercial banking system faced high level of NPLs especially from large enterprise, SME, and retail loan customers, resulting in lower net profits due to higher allowance for doubtful accounts. As a result, the banking system focused on strict lending criteria, efficient risk management instead of loan competition and became more cautious on loan growth.

In funding and deposits, the banks competed in launching deposit products, subordinated debentures issuance and sales of debentures domestic and overseas.

Profitability of commercial banking industry was still good which net profits increased from the previous year, loans are not growing very well because commercial bank focused on cost-effectiveness of management both in interest cost and management costs resulting net profit in commercial bank in the year 2016 increased 3.7% compared to the year 2015, profit from operating expanded 4.2% from the year 2015.

Outlook of Commercial Banking Industry and Competition in 2017

Office of the National Economic and Social Development Board or NESCB's report on reduction of expected GDP growth in 2017 to 3.0%-4.0% or 3.5% reflects slow economic recovery. In addition, high level of non-performing loans or NPLs in the year 2016 will still be considered by commercial banks when it comes to loan approval in 2017. However, reports on expected growth of loans from many commercial banks show that loans will grow by 3.0% which equal to the growth rate of the GDP.

Commercial banking system focuses on controlling Cost-to-Income ratio. In 2016, many banks closed branches or postponed new branch opening and also decreasing employees of branches to partly reduce operating costs. This action was also in accordance with the development of digital banking which has played a more important role because it allows anywhere and anytime transactions, which is more convenient and faster than visiting the branches.

Analysis of Banking Industry Influencing the Bank's Performance

Commercial banking system will be competed in development of financial products to increase the customer base especially retail customer base to support the reduction of deposit protection from not more than Baht 25 million to not more than Baht 1 million, to be effective on January 1, 2020. The bank ficuses on building income in all part from interest income, non interest income and fee income, effective cost operation control including accelerating the development of technology to become a fully digital banking.

The structure of the board of directors is in line with the appropriate and fair proportion and for the independence of the chairman, including the distribution of powers in separating the Good Corporate Governance policy from routine management. Therefore, the company's chairman of the board directors, chairman of the executive directors and chairman of the audit committee shall not be the same person as the president of the company. The company has provided a clear separation of powers. For balancing and management monitoring, so any person will have the unlimited power.

- The board of directors was selected on the considering of knowledge, experience, expertise, integrity, ability to give independent analytical inquiries, understanding in business of the financial business group and not against a person because of that person's gender.
- The board of directors has determined the qualification of the bank's independent directors in accordance with the good corporate governance practices and requirements stricter than the Notification of the Capital Markets Supervisory Board and the Bank of Thailand. The company's board of directors consists of the independent directors at least 3 persons or at least one third of the total members of the board, whichever number is higher. The independent directors must not be the employee and not receive the salary from the company and independent from the company's major shareholders and able to oversee the minor shareholders' interests.
- Qualification Details of independent directors has disclosed in Management Structure Section regarding Qualifications of Independent Directors
- The board of directors has approved a semi-annually reviewed annual plan and budget, including corporate business strategies, and also undertakes supervision of management's administration to ensure compliance with the established strategies and plan taking in account the best interests of the company, and follow up the administration on a monthly basis to ensure effective implementation of the strategies as per the set goals and plan.

- The board of directors has determined the term of position of the directors in accordance with the Public Limited Companies Act and the Articles of Association. In the Annual General Meeting of Shareholders, the directors must retire one-third of the directors. If the number of the directors is not divisible by three, the one nearest to one-third shall be used. Directors hold the position for the longest term shall retire first. If an agreement cannot be reached, retirement shall be determined by draw lot. Retired directors may be re-elected.
- Any director or person who may have conflict of interest or stake, such director is not authorized in approving the operation to the company or the affiliates as regulated by the Securities and Exchange Commission and / or the Stock Exchange of Thailand.
- 2. Sub-Committee
- The board of directors has delegated its authority effectively and transparently by the company's board of directors has setting the sub-committees to help study details and filter the work, relieving the company's board of directors of the workload and allowing it to spend more time considering issues with more clarity. The sub-committees consists of 5 committees as follows;
 - 1. The Executive Directors Committee
 - 2. The Audit Committee
 - 3. The Corporate Governance Committee
 - 4. The Nomination and Remuneration Committee
 - 5. The Risk Management Committee

Moreover, the chairman of the audit committee, the chairman of the corporate governance committee and the chairman of the nomination and remuneration committee are the independent directors for transparency and independence in performing their duties. The sub-committees have clearly defined job roles and responsibilities.

Details about the Sub-Committee has disclosed in Management Structure Section regarding the details of Scope of Duties Responsibilities of the Sub-Committee

Customers can deposit a minimum initial deposit is Baht 1,000, and the more customers deposit, the more customers gain the benefit and coverage without health check and without insurance premium payment.

2. Employment of retired employee

The company has determined its recruitment management guidelines to support older people society by specifying criteria that includes employment of retired employee to carry out duties in the important positions. This is to provide career opportunities for retired personnel to come back to work again. In addition, this would also compensate for workforce shortage as well.

3. Hiring the Older People as Lecturer

The bank has arranged the "My Bank My Love" activity for purposes of creating lasting positive relationships between customers and the bank by proposing valuable and customer beneficial activities. The bank has hired older people with expertise in various subjects as lecturer to transfer knowledge to the bank's customers. Thus, customers that participated in the activities were able to apply the knowledge obtained and create a career out of it. Some of the activities included scented soap making, perfume making, floral decoration arrangement, sewing, clay molding, and herb inhaler making.

3. Art and Culture

The bank has arranged the traditional activities with people living in the areas located near the bank, for example, supporting the activity in Chinese Festival and Children's Day Activity for promoting and encouraging the tradition and culture with the communities around the bank's branches.

The bank supported Children's Day Activity at the Library for Learning, Lumpini Park

The bank supported Children's Day Activity at Wat Disanukaram School and Samranrat Police Station

LH Bank, Yaowarat branch, participated in the Chinese New Year festival activities by offering the auspicious oranges to the bank's customers

8. ENVIRONMENTAL MANAGEMENT

Land and Houses Bank Public Company Limited realizes the importance of environmental problems as we see that the operation of activities cause the environmental impact both directly and indirectly. When the time passes, such impact will become environmental pollution and cause natural disaster resulting in the huge loss. The Bank operates several measures in reducing the problem of pollution for preserving the environment by promoting the energy saving inside the organization and the saving of paper consumption.

Green Office Project

All implementations of the bank consume resources and energy and cause environmental impacts such as waste and polluted water. Inevitably, the Bank shares a part in greenhouse gas emission into the atmosphere which in turn causes climate change and global warming, a critical environmental issue affecting the whole nation and the world.

The bank has realizes the importance of good environmental management and has assigned the Occupational Safety, Health, and Environment Committee in order to study and improve the practice for introducing Green Office Project. The project has been carried out since 2012. The main focus is to educate the employees about management of resources, energy, and environment, and environment-friendly procurement. The final goal is to have an efficient use of resources and energy to alleviate the standard to environment-friendly level. By achieving that, the bank will be successful in reducing the emission of greenhouse

gasses and environmental impact. It all can start with the environment-friendly activities to change the behavior of the officers in the bank and encourage them to join the minimized consumption of energy and emission of pollution to the public.

Implementation of the Green Office Project

- 1. Use energy saving device
- 2. Take advantage of the natural light
- 3. Design an efficient office layout
- 4. Promote 5S activity
- 5. Check illumination in the office with the

standard value

6. Increase green space in the office

Energy Management

The bank is continuously trying to do a good energy management including electricity and tap water in order to achieve efficient use and sustainability of the corporate. Some of the improvements include the following:

> - The bank has improved the office and supplies in an environmental-oriented manner and protects its employees from pollution. The focus is the management to reduce pollution, energy usage, and costs.

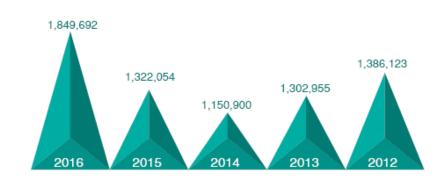

- The bank has reduced the old technology devices and the single function items and shift to new technologies that help reduce pollution and save energy. The outcome of constant implementation since 2012 showed that the activity has helped reduce the energy costs and other expenses greatly, especially paper usage, supplies procurement, maintenance cost, and the space of the office.
- The bank has used the energy saving devices and the LED tube light, watt bulb with a suitable space, the suitable size of cable, in addition, to decorate the office with soft color, use natural light as much as possible and also has used water-saving tap.

During 2016-2017, the bank has a plan to replace incandescent light bulbs to LED, which could help to reduce power consumption by 25% and greatly reduces the radiation heat when compared to the incandescent light bulbs. In the 2016, there were many completed projects, such as changing the incandescent light bulb in front of the head office building, and in the year 2017, the company will change to use LED in the head office's area.

Electricity Usage

Electricity usage of 2016 totaled 1,849,692 units (kWh) compared to 2015 totaled 1,322,054 units (kWh) due to an increase in electricity usage or increasing by 39.91%. The electricity usage in 2016 increased from using meeting rooms and multi-purpose spaces for seminars and activities.

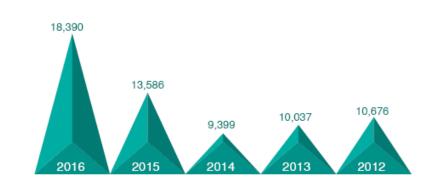

Electricity Usage (Units)

Tap Water Usage

The tap water usage in 2016 totaled 18,390 units, increasing by 13,586 cubic meters of tap water or increasing by 35.36% compared to 2015. The tap water usage in 2016 increased from using of meeting rooms and multi-purpose spaces for seminars and activities.

Shifting from Printed Meeting Invitation Letter to Saving the Letter in iPad

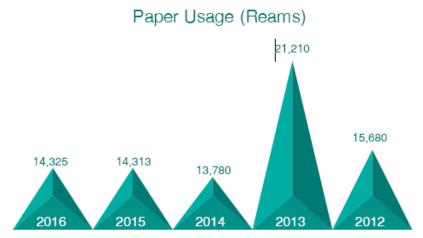

The bank has changed the process of preparing the meeting's materials of the bank's board of directors, the executive directors committee, the audit committee, the corporate governance committee and the nomination and remuneration committee by changing the meeting's materials from paper to e-documents which recorded in iPad. As a result, this process can help to reduce paper consumption by approximately 5,000 pieces a month.

Pool Printer Management Project

The bank has improved the way its department use the printers. Formerly, the departments used the single-function printers but now they have shifted to use the multi-function (4 in 1) printers. One printer is shared among a pool of departments. The result is the lower usage of paper, electricity, and space.

Paper Usage

The amount of paper used in the year 2016 was 14,325 reams and increased by 0.08% compared to the year 2015 which was 12 reams.

Measurement of Intensity of Light in Workplace

The bank pays attention to dangers of light that may affect to the employees. In case of insufficient illumination, it will cause negative symptoms to the eyes and may cause simple accidents like failing to catch an object or touching the dangerous part of the tools by mistake including affects the mental health, slow performance and lower motivation to work.

Since 2014, the bank has measured the intensity of light in all areas of the office to ensure the working area has a proper light and also conducts the light measurement every 3 years.

Measurement Data and Data Collection Process

1. Measure at working area: focus on the intensity of light on the spots that operators need to perform sight-specific work

2. Measure and average of the general area: measure the intensity of light in general areas such as walkways and working areas.

The results of measurement of intensity of light in workplace: After the actual measurement of the intensity of light in lux unit, it was found that illumination in the office was sufficient and compliant with the standard of not less than and not more than 400 lux.

5S Activity

The bank has applied the 5S activity which consists of sort, set in order, shine, standardize and sustainable. The activity is the neater workplace and environment free of dirt and unnecessary objects, healthier and more disciplined staff. This in turn results in saving of resources and costs. In addition, it contributes to a quality and efficient work which the 5S activity gained well cooperation from the employees and the bank has a continuous implementation of the activity.

5S Activity Results

- 1. Result of Sort
 - Cutting down the waste of resources

(Mr. Adul Vinaiphat) Chairman of the Nomination and Remuneration Committee

REPORT OF THE BOARD OF DIRECTORS' RESPONSIBILITY FOR FINANCIAL STATEMENT

The Board of Directors of Land and Houses Bank Public Company Limited is responsible for the separated and consolidated financial statements and the financial information presented in this annual report. The aforementioned financial statements were prepared in accordance with the generally accepted accounting principles, applying appropriate and consistent accounting policies and with careful judgments. An important information is adequately and transparently disclosed for shareholders and other investors in the notes to financial statements.

The Board of Directors has established and maintained the appropriate and effective risk management and internal control system in order to rationally assure that the accounting information is correctly and completely recorded and adequate to sustain assets of the bank.

The Board of Directors has appointed the Audit Committee comprised of independent directors responsible for the quality of the financial statements and an internal control. The Audit Committee's comments on these issues are included in the Audit Committee Report in this annual report.

The separated and consolidated financial statements of the bank were audited by the certified public accountant of EY Office Limited. In the audit, the bank has supported all information, data and documents in order that the auditor would be able to audit and address opinions to the auditing standards. The auditor's opinions were included in the Report of in dependent Auditor in this annual report.

In the Board of Directors' point of view, the bank has an appropriate and adequate internal audit control system for the credibility of the separated and consolidated financial statements of the bank as of December 31, 2016.

(Mr. Anant Asavabhokhin) Chairman of the Board of Directors

Depus her

(Mrs. Sasitorn Phongsathorn) President

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of Land and Houses Bank Public Company Limited

Opinion

I have audited the accompanying financial statements of Land and Houses Bank Public Company Limited, which comprise the separate statement of financial position as at 31 December 2016, the separate statements of comprehensive income, changes in owners' equity and cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and have also audited the consolidated statements of comprehensive income, changes in owners' equity and cash flows of Land and Houses Bank Public Company Limited and its subsidiary (the Group) for the same period.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Land and Houses Bank Public Company Limited as at 31 December 2016, its financial performance and cash flows for the year then ended and financial performance and cash flows for the year then ended of Land and Houses Bank Public Company Limited and its subsidiary, in accordance with Thai Financial Reporting Standards.

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing. My responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I am independent of the Group in accordance with the Code of Ethics for Professional Accountants as issued by the Federation of Accounting Professions under the Royal Patronage of His Majesty the King as relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with the Code. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Thai Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Thai Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements As part of an audit in accordance with Thai Standards on Auditing, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. I am responsible for the direction, supervision and performance of the group audit. I remain solely responsible for my audit opinion.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

The engagement partner on the audit resulting in this independent auditor's report is Rachada Yongsawadvanich.

Rachada Yongsawadvanich Certified Public Accountant (Thailand) No. 4951

Land and Houses Bank Public Company Limited and its subsidiary Notes to financial statements For the years ended 31 December 2016 and 2015

1. The Bank's information

Land and Houses Bank Public Company Limited ("the Bank") was incorporated as a public limited company under Thai laws and has been operating a commercial bank business in Thailand. LH Financial Group Public Company Limited is the parent company, holding 99.99% of the issued and paid-up share capital of the Bank.

The Bank's registered office is located at No. 1, on the G, 1st, 5th, 6th and 32nd floors of Q-House Lumpini Building, South Sathorn Road, Thungmahamek Sub-district, Sathorn District, Bangkok. As at 31 December 2016, the Bank has 1 head office and 132 branches in Thailand (31 December 2015: 1 head office and 125 branches in Thailand).

2. Basis for preparation of financial statements

2.1 Basis for preparation of financial statements

The financial statements have been prepared in accordance with Thai Financial Reporting Standards enunciated under the Accounting Professions Act B.E. 2547 and the regulation of the Bank of Thailand ("BoT"), and their presentation of the financial statements has been made in compliance with the BoT's Notification No. Sor Nor Sor. 21/2558 regarding "Preparation and Announcement of Financial Statements of Commercial Banks and Parent Companies of Financial Holding Groups", dated 4 December 2015.

The financial statements have been prepared on a historical cost basis except where otherwise disclosed in Note 4 to the financial statements regarding a summary of significant accounting policies.

The financial statements in Thai language are the official statutory financial statements of the Bank. The financial statements in English language have been translated from the financial statements in Thai language.

2.2 Basis of consolidation

(a) As a result of the financial business group restructure on 1 March 2016, the Bank sold shares of Land and Houses Fund Management Company Limited ("LH Fund"), which is the subsidiary, to LH Financial Group Public Company Limited, which is the Bank's parent company. The Bank therefore included the financial statements of the subsidiary only up to 29 February 2016 in preparation of consolidated financial statements. The Bank restated items in statements of comprehensive income for the year ended 31 December 2015 for comparative purpose with those of the current year due to a separate presentation of performance between the continuing operation and the discontinued operation as a result of disposal of a subsidiary.

- (b) The Bank is deemed to have a control over an investee or a subsidiary if it has rights, or is exposed, to variable returns from its involvement with the entity it has invested, and it has the ability to direct the activities that affect the amount of its returns.
- (c) Subsidiary has been fully consolidated from the date on which the Bank has obtained control until the date when such control ceases.
- (d) The financial statements of the subsidiary are prepared for the same reporting period and use the same significant accounting policies as those of the Bank.
- (e) The significant outstanding balances and intercompany transactions have been eliminated from the consolidated financial statements until the date when such control ceases.
- (f) Non-controlling interests represent the portion of profit or loss and net assets of the subsidiary that is not held by the Bank, and are presented separately in the consolidated statements of comprehensive income and within owners' equity in the consolidated statements of financial position.

2.3 The separate financial statements

The Bank has prepared the separate financial statements, which have presented investment in a subsidiary under the cost method.

3. New financial reporting standards

3.1 Financial reporting standards that became effective in the current year

During the year, the Bank has adopted the revised (revised 2015) and new financial reporting standards and accounting treatment guidance issued by the Federation of Accounting Professions which become effective for fiscal years beginning on or after 1 January 2016. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards, with most of the changes directed towards revision of wording and terminology, and provision of interpretations and accounting guidance to users of standards. The adoption of these financial reporting standards does not have any significant impact on the Bank's financial statements.

3.2 Financial reporting standard that will become effective in the future

During the current year, the Federation of Accounting Professions issued a number of the revised financial reporting standards and interpretations (revised 2016) which is effective for fiscal years beginning on or after 1 January 2017. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards revision of wording and terminology, and provision of interpretations and accounting guidance to users of standards. The management of the Bank believes that the revised financial reporting standards and interpretations will not have any significant impact on the financial statements when they are initially applied.

4. Summary of significant accounting policies

4.1 Revenue recognition

(a) Interest and discount on loans to customers

The Bank recognises interest and discount on loans to customers as revenue on an accrual basis, based on the amount of principal outstanding. For (a) loans to customers on which principal or interest payments have been defaulted for more than three months from the due date; (b) loans to customers on which principal or interest payments have been defaulted for not more than three months but are classified as sub-standard, doubtful or doubtful of loss; or (c) factoring loans which have been defaulted from the due date, the Bank ceases accrual of interest income and instead recognises interest income on cash basis and reverses any interest previously accrued as revenue, in accordance with the BoT's Notification. Interest is then recognised as income on cash basis until settlement of such overdue balance has been received from the debtors.

The Bank recognises interest income from hire purchase as revenue over the period of the contracts, using the effective interest rate method. If hire purchase receivables default on installments and are overdue more than three months from the due date, the Bank ceases accrual of revenue and reverses the revenue previously recorded from its accounts.

The Bank recognises interest income on restructured loans as revenue on the same accrual basis as applied on loans to customers discussed above, with the exception of restructured loans that are subject to monitoring for compliance with restructuring conditions. On those loans, the Bank recognises interest income on cash basis until the borrower has been able to comply with the restructuring conditions for a period of not less than three consecutive months or three consecutive installments, whichever is longer.

Interest or discount which are already included in the face value of notes receivable or loans are recorded as deferred revenue, which will be amortised to income evenly throughout the term of the notes or loans.

(b) Fees and service income

Fees and service are recognised as revenues on an accrual basis, taking into account the stage of completion. Management and registrar fees are recognised as revenues on an accrual basis, calculated based on percentages of the net asset value of the funds under the subsidiary's management or at rates stipulated in agreements.

(c) Gains (losses) on investments

Gains (losses) on investments are recognised as revenues or expenses on the transaction dates.

(d) Interest and dividends

Interest is recognised as revenues on an accrual basis. Dividends are recognised as revenues when the right to receive the dividends is established.

4.2 Expense recognition

(a) Interest expenses

Interest expenses are recognised on an accrual basis. Interest on notes payable included in the face value is recorded as deferred interest expense, which will be amortised as expenses evenly throughout the term of the notes.

(b) Commission and direct expenses charged on hire purchase

Commission and direct expenses incurred at the inception of a hire purchase contract i.e. commission expenses, are to be gradually amortised, using the effective interest rate method, to be presented net of interest income on hire purchase.

(c) Fees and service expenses and other expenses

Fees and service expenses and other expenses are recognised as expenses on an accrual basis.

4.3 Cash and cash equivalents

Cash and cash equivalents are the amounts included in the statements of financial position under the caption of "Cash", which consists of cash on hand and cheques in transit.

4.4 Securities purchased under resale agreements/securities sold under repurchase agreements

The Bank enters into agreements to purchase securities or to sell securities that include agreements to sell or purchase the securities back at certain dates in the future at fixed prices. Amounts paid for securities purchased subject to resale commitments are presented as assets under the caption of "Interbank and money market items" in the statements of financial position, and the underlying securities are treated as collateral to such receivables, while securities sold subject to repurchase commitments are presented as liabilities under the caption of "Interbank and money market items" in the statements and money market items" in the statements are presented as liabilities under the caption of "Interbank and money market items" in the statements of financial position at the amounts received from the sale of those securities, and the underlying securities are treated as collateral.

The differences between the purchase price and the sale considerations are recognised as interest income or expenses, as the case maybe, over the transaction periods.

4.5 Investments

Available-for-sale investments are stated at fair value. Changes in the fair value of these investments are recognised in other comprehensive income (loss), and will be subsequently recognised in profit or loss when the investments are sold.

Held-to-maturity investments are presented at amortised cost less allowance for impairment (if any). The premium/discount on debt securities is amortised by the effective interest rate method with the amortised amount presented as an adjustment to interest income.

Investments in non-marketable equity securities, which are classified as general investments, are stated at cost less allowance for impairment (if any).

The fair value of marketable equity securities is based on the last bid price of the last working day of the reporting periods on the Stock Exchange of Thailand. The fair value of debt securities is based on the yield rates quoted by the Thai Bond Market Association. The fair value of investment units that are not listed securities are determined based on their net asset value per unit at the end of the reporting periods.

Loss on impairment (if any) of investments is recognised in profit or loss.

In cases where there is reclassification of investment type from one type to another, such investments will be readjusted to their fair value as at the reclassification dates. The difference between the carrying amount and the fair value on the date of reclassification are recorded in profit or loss or other comprehensive income (loss), depending on the type of reclassified investment.

The Bank and its subsidiary record purchases and sales of investments on the transaction date. On disposal of an investment, the difference between net disposal proceeds and the cost of an investment is recognised in profit or loss. The Bank and its subsidiary use the weighted average method for computation of the cost of an investment when it is sold.

4.6 Investment in a subsidiary

Investment in a subsidiary, presented in the separate financial statements, is stated at cost net of allowance for impairment (if any).

4.7 Loans to customers

Loans to customers are presented at the principal balances, excluding accrued interest receivables, except for overdrafts which are presented at the principal balances plus accrued interest receivables. Deferred revenue and unearned discount on loans to customers are deducted from the balances of loans to customers.

Hire purchase receivables are stated at the outstanding balances under the agreements less the balances of deferred revenue, which are presented net of deferred initial direct costs.

4.8 Allowance for doubtful accounts

The Bank provides allowance for doubtful accounts in accordance with the BoT's guidelines, using the minimum rates stipulated by the BoT, based on loan classification as follows:

รายงานประจำปี ๒๕๕๙ ANNUALREPORT 2016

For loans classified as "pass" (including restructured loans) and "special-mention", the minimum rates stipulated by the BoT are 1% and 2%, respectively, of the loan balances net of deferred revenue (excluding accrued interest receivables) after deducting collateral value in accordance with criteria stipulated by the BoT.

For non-performing loans, which are loans classified as "sub-standard", "doubtful" and "doubtful of loss", the minimum rate stipulated by the BoT is 100% of the excess of the loan balances over the present value of expected future cash flows from debt collection or from collateral disposal. The discount rates and expected durations required to dispose collateral used in determining the present value are in accordance with criteria stipulated by the BoT.

Moreover, the Bank sets up, in addition to aforementioned minimum rates, an additional allowance for doubtful accounts to reflect the amounts that are not expected to be collectible from debtors, based on evaluation of the probability of default and loss given default. The evaluation also takes into consideration debtors' collection history, default experience and the value of the underlying collateral.

Allowance for doubtful accounts additionally set up (reversed) is charged to expense for each year.

Amounts written off as bad debts are deducted from allowance for doubtful accounts. Write offs are only made for loans which the subsidiary pursues the collection but has no prospect of further receipts. These procedures comply with BoT's notification and guidelines. In case of recovery being made from bad debts, the recovered amount is recognised as revenue in the year they are recovered.

4.9 Troubled debt restructuring and loss from debt restructuring

The Bank records troubled debt restructuring transactions with reference to criteria stipulated by the BoT. In cases where the troubled debt restructuring involves modification of the repayment conditions, the Bank will determine the present value of expected future cash flows to be received in accordance with the new restructuring agreements, discounted by the loan's original contract rates. And in cases where the debt restructuring has been processed through the courts, the Bank will calculate discounted cash flows from the disposal of collateral or expected future cash flows from repayment using the original contract rates. The excess of the recorded outstanding loans to customers balances over the determined present value of future cash flows is accounted for as revaluation allowance for debts restructuring and is recognised as expenses in profit or loss on the debt restructuring date (only if the determined revaluation allowance for debts restructuring troubled debt, the Bank will review allowance based on present value of remaining future cash flows and adjusts allowance against bad debts and doubtful account expenses.

รายงานประจำปี เอสสส ANNUAL REPORT 2016

In cases where the troubled debt restructuring involves assets swap and/or equity swap, the Bank recognises loss from debt restructuring in profit or loss equal to the excess of the recorded outstanding loans to customers balances with the fair value of assets and/or equity received in settlement of debts (after deducting the estimated selling expense). However, the value of assets being transferred to the Bank will be recorded at the amount not exceeding the sum of the book value of loans to customers and non-accrued interest income to which the Bank is entitled legally.

In cases where the troubled debt restructuring involves reduction of principal and/or accrued interest receivables, the Bank recognises the reduced amounts immediately as expenses.

4.10 Properties foreclosed

Properties foreclosed are stated at the lower of cost or net realisable value. The cost is the carrying value of debt balance of the debtor on the date the Bank is entitled to such properties foreclosed to settle debt. Net realisable value is determined with reference to the latest appraisal value less estimated selling expenses.

Gain (loss) on disposal of properties foreclosed is recognised as revenue or expense in profit or loss when sold. Impairment loss is recognised as expenses in profit or loss.

4.11 Premises and equipment and depreciation

Land is stated at cost less allowance for impairment (if any). Buildings and equipment are stated at cost less accumulated depreciation and allowance for impairment (if any). Depreciation is calculated by reference to their costs on the straight-line basis over the following estimated useful lives.

| Buildings | - | 20 years |
|------------------------|---|---------------|
| Leasehold improvements | - | 3 and 5 years |
| Furniture and fixtures | - | 5 years |
| Office equipment | - | 3 and 5 years |
| Vehicles | - | 5 years |

Depreciation is recognised in profit or loss.

No depreciation is provided on land and assets in progress.

An item of land, buildings and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on disposal of an asset is included in profit or loss when the asset is derecognised.

4.12 Intangible assets and amortisation

Intangible assets are measured at cost upon initial recognition and subsequently measured at cost less any accumulated amortisation and allowance for impairment (if any).

Intangible assets with finite useful lives are amortised on a systematic basis over their economic useful lives and tested for impairment whenever there is an indication that the intangible assets may be impaired. The amortisation period and method for such intangible assets are reviewed at least at the end of year. The amortisation expense and impairment loss are charged to expenses in profit or loss.

Intangible assets with finite useful lives are computer softwares and deferred membership and license fee, which have estimated useful lives of 5 and 10 years, respectively. No amortisation is provided on computer softwares under development.

4.13 Impairment of assets

At the end of each reporting period, the Bank and its subsidiary perform impairment reviews in respect of assets whenever events or changes in circumstances indicate that an asset may be impaired. The Bank and its subsidiary recognise impairment loss in profit or loss when the recoverable amount of asset, which is the higher of the asset's fair value less costs to sell and its value in use, is less than the carrying amount.

In determining value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, the calculations are based on the amount that they could obtain from the disposal of the asset in an arm's length transaction between knowledgeable, willing parties, after deducting the costs of disposal.

4.14 Provisions for liabilities

Provisions for liabilities are recognised when the Bank and its subsidiary have a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

4.15 Employee benefits

(a) Short-term employment benefits

Salary, wages, bonuses and contributions to the social security fund are recognised as expenses when incurred.

(b) Post-employment benefits

Defined contribution plan

The Bank, its subsidiary and their employees have jointly established a provident fund. The fund is monthly contributed by employees and by the Bank and its subsidiary. The fund's assets are held in a separate trust fund and the Bank and its subsidiary's contributions are recognised as expenses when incurred.

Defined benefit plan

The Bank and its subsidiary treat the severance payments they must make to employees upon retirement under labor law as a defined benefit plan.

The Bank's obligation under the defined benefit plan is determined by a professionally qualified independent actuary, using the Projected Unit Credit Method, or by its subsidiary's management using the actuarial discounted cash flow techniques.

Actuarial gains or losses arising from the defined benefit plan are recognised in other comprehensive income (loss) and directly charged to retained earnings.

4.16 Derivatives

The Bank enters into derivative transactions for its banking book whereby the Bank records them as off-balance items, which are presented on an accrual basis. The foreign exchange components of those derivatives are recognised based on exchange rates ruling at the end of the reporting periods in the same manner as the hedged items. Unrealised gains or losses on exchange rates are recognised in profit or loss whereas the interest components of those derivatives are recognised on an accrual basis, in the same manner as the hedged assets and liabilities, as a part of interest income or expense over the term of the contracts.

4.17 Foreign currencies

The consolidated and separate financial statements are presented in Baht, which are also the Bank's and its subsidiary's functional currency. Items of each entity included in the consolidated financial statements of each entity are measured using the functional currency of that entity.

Transactions in foreign currencies, which occurred during the year, are translated into Thai Baht at the reference rates ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies and commitment outstanding on the financial reporting date have been translated into Baht at the rates ruling at the end of the reporting periods.

Gains or losses on exchange are recognised as revenues or expenses in profit or loss and are presented as a part of net gains (losses) on trading and foreign exchange transactions.

ธนาคารแลนด์ แอนด์ เอ้าส์ จำกัด (มหาชน) LAND AND HOUSES BANK PUBLIC COMPANY LIMITED

4.18 Income taxes

Income taxes represent the sum of income taxes currently payable and deferred income taxes.

(a) Current income taxes

Current income taxes are provided in the accounts at the amount expected to be paid to the taxation authorities, based on taxable profits determined in accordance with tax legislation.

(b) Deferred income taxes

Deferred income taxes are provided on temporary differences between the tax bases of assets and liabilities and their carrying amounts at the end of each reporting period, using the tax rates enacted at the end of the reporting periods.

The Bank and its subsidiary recognise deferred tax liabilities for all taxable temporary differences while they recognise deferred tax assets for all deductible temporary differences and tax loss carried forward to the extent that it is probable that future taxable profit will be available against which such deductible temporary differences and tax loss carried forward can be utilised.

At each reporting date, the Bank and its subsidiary review and reduce the carrying amount of deferred tax assets to the extent that they are no longer probable that sufficient taxable profit will be available to allow all or a part of deferred tax assets to be utilised.

The Bank and its subsidiary record deferred taxes directly to owners' equity if the taxes relate to items that are recorded directly to owners' equity.

4.19 Long-term leases

Leases that do not transfer substantially all the risks and rewards of ownership to the Bank and its subsidiary, as being the leasees, are classified as operating leases. Operating leases are recognised as expenses in profit or loss on the straight line basis over the lease periods.

4.20 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between buyer and seller (market participants) at the measurement date. The Bank and its subsidiary apply a quoted market price in an active market to measure its assets and liabilities that are required to be measured at fair value by relevant financial reporting standards, except when there is no active market of an identical assets or liabilities or when a quoted market price is not available. The Bank and its subsidiary measure fair value using a valuation technique that is appropriate in the circumstances and maximises the use of relevant observable inputs related to assets and liabilities that are required to be measured at fair value.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy into three levels based on categories of inputs to be used in fair value measurement as follows:

Level 1 Use of quoted market prices in an observable active market for such assets or liabilities

Level 2 Use of other observable inputs for such assets or liabilities, whether directly or indirectly

Level 3 Use of unobservable inputs such as estimations of future cash flows

At the end of each reporting period, the Bank and its subsidiary determine whether transfers have occurred between levels within the fair value hierarchy for assets and liabilities held at the end of the reporting periods that are measured at fair value on a recurring basis.

4.21 Related party transactions

Related parties comprise enterprises and individuals that control, or are controlled by the Bank and its subsidiary, whether directly or indirectly, or which are under common control with the Bank and its subsidiary.

They also include individuals which directly or indirectly own a voting interest in the Bank and its subsidiary that give them significant influence over the Bank and its subsidiary, key management personnel, directors, and officers with authority in the planning and direction of the Bank and its subsidiary's operations, together with closed family members of such persons and companies which are controlled or significantly influenced by them, whether directly or indirectly.

5. Significant accounting judgments and estimates

The preparation of financial statements in conformity with financial reporting standards at times requires management to make subjective judgments and estimates regarding matters that are inherently uncertain. These judgments and estimates affect reported amounts and disclosures and actual results could differ from these estimates. Significant judgments and estimates are as follows:

5.1 Fair value of financial instruments

In determining the fair value of financial instruments recognised in the statements of financial position or disclosured in note to financial statements that are not actively traded and for which quoted market prices are not readily available, the management exercise judgment, using valuation techniques and models. The input to these models is taken from observable markets, and includes consideration of credit, liquidity, correlation and longer-term volatility of financial instruments. Change in assumptions about these variables could affect the fair value reported in the statements of financial position and disclosed in their disclosure notes of the fair value hierarchy.

5.2 Allowance for impairment on investments

The Bank and its subsidiary consider setting up an allowance for impairment on investments whenever there is an indication of impairment. The management is required to use judgment in loss estimation of each item, based on analysis of current status.

5.3 Allowance for doubtful accounts

Allowance for doubtful accounts on loans to customers and accrued interest receivables are intended to adjust the value of loans to customers for probable credit loss. The management follows the BoT's guidelines regarding setting up allowance for doubtful accounts, including the use of judgment to estimate losses expected to be incurred on loans and/or accrued interest receivables, taking into consideration an analysis of status of each individual debtor and group of debtors, probability of default, loss given default, debtors collection history, values of collateral, and economic conditions.

5.4 Premises and equipment and depreciation

In determining depreciation of buildings and equipment, the management is required to make estimate of the useful lives and residual value of buildings and equipment and to review estimated useful lives and residual value when circumstances change.

In addition, the management is required to review premises and equipment for impairment on a periodical basis and records impairment loss when it is determined that their recoverable amounts are lower than their carrying values. This requires judgments regarding forecast of future revenues and expenses relating to the assets subject to the review.

5.5 Intangible assets

The initial recognition and measurement of intangible assets, including subsequent impairment testing, require management to make estimates of cash flows to be generated by the assets or the cash generating units and to choose a suitable discount rate in order to calculate the present value of those cash flows.

5.6 Deferred tax assets

Deferred tax assets are recognised in respect of temporary differences only to the extent that it is probable that taxable profit will be available against which those temporary differences and tax loss carried forward can be utilised. Significant management judgment is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of estimated future taxable profits.

5.7 Provisions for employee benefits

Provisions for employee benefits are determined using actuarial techniques. Such determination is made based on various assumptions, including discount rate, future salary incremental rate, staff turnover rate and mortality rate, based on their best knowledge of current events and arrangement.

5.8 Litigation

The Bank has contingent liabilities as a result of claim litigation. The management has used judgment to assess the outcome of the litigation cases and believe that loss will not be incurred. Therefore no contingent liabilities are recognised at the end of reporting periods.

5.9 Recognition and derecognition of assets and liabilities

In considering whether to recognise or derecognise assets and liabilities, the management is required to make judgment on whether risks and rewards of those assets and liabilities have been transferred, based on their best knowledge of current events and arrangements.

5.10 Assessment of investment funds as structured entities

In determining whether the funds, in which the subsidiary provides asset management services to, are structured entities, the management is required to use judgement, taking in to consideration the voting rights and other similar rights afforded to other parties in these funds, including the rights to remove the subsidiary as a fund manager, liquidate the funds, or redeem holdings in the funds and has concluded as to whether these rights are the dominant factor in deciding who controls the funds.

6. Interbank and money market items (assets)

* Disclosed only in case that the Bank has an obligation to pay.

รายงานประจำปี ๒๕๕๙ ANNUALREPORT 2016

Derivatives held for banking book are obligations under contracts, which are not held for trading, and are measured on an accrual basis. Components of foreign exchange are recognised as gains (losses) on exchange at the end of the reporting periods as revenues or expenses in profit or loss and are presented under derivatives assets or liabilities, as the case maybe. Components of interest rate are recognised as interest income or expense according to the contracted installments as they fall due and recorded as accrued interest receivables or payables and presented as a part of accrued interest receivables on investments or interest payables, as the case maybe.

ธนาคารแลนด์ แอนด์ เฮ้าส์ จำกัด (มหาชน) LAND AND HOUSES BANK PUBLIC COMPANY LIMITED

ANNUAL REPORT 2016 รายงานประจำปี เดสสส

8.5 Investments subject to restriction

As at 31 December 2016, the Bank placed government and state enterprise securities totaling Baht 2,911 million (face value) as securities against those sold under repurchase agreements (31 December 2015: Nil).

8.6 Reclassification of investment types

During the year ended 31 December 2016, the Bank reclassified its investments in government and state enterprise securities from available-for-sale investments to be held-to-maturity debt securities, as approved by the resolution of its Executive Director Committee, whereby the fair value at the reclassification date and the original cost of the reclassified investments amounted to Baht 3,634 million and Baht 3,786 million, respectively, and the difference of Baht 152 million was recognised as revaluation deficit on investments in owners' equity, which will be amortised throughout the remaining periods of such investments.

9. Investment in a subsidiary

Investment in a subsidiary, as presented in the separate financial statements as at 31 December 2015. is an investment in the ordinary shares of Land and Houses Fund Management Company Limited, which has been operating a fund management business. Details are as follows:

| | | | (Unit: Thousand Baht) |
|----------------------------|--------------------|------------------|-----------------------|
| | | 31 December 2015 | |
| | Issued and paid-up | Shareholding | |
| Company's name | capital | percentage | Cost |
| | | (Percent) | |
| Land and Houses Fund | | | |
| Management Company Limited | 300,000 | 99.99 | 257,289 |

On 1 March 2016, the Bank disposed of an investment in a subsidiary in which the carrying held 99.99 percent of the issued and paid-up share capital for a price equivalent to the carrying value of net asset of the subsidiary as at the end of February 2016, amounting to Baht 325 million, to LH Financial Group Public Company Limited, which is the Bank's parent company. The Bank recognised gains on sale of investments (presented as part of "Gains on investments" in statement of comprehensive income) as follows:

| | | (Unit: Thousand Baht) |

⁷For loans classified as pass and special-mention, net amount used for setting allowance for doubtful accounts means principal balance excluding accrued interest receivables and net of collateral. For loans classified as sub-standard, doubtful and doubtful of loss, it means the principal balance after deduction of the present value of future cash flows expected to be received from debt collection or from the disposal of collateral.

10.5 Non-performing loans

As at 31 December 2016 and 2015, the Bank has the following non-performing loans:

| | | Consolidated and |
|--|------------------|------------------|
| | Separate | separate |
| | financial | financial |
| | statements | statements |
| | 31 December 2016 | 31 December 2015 |
| | | |
| Non-performing loans (Thousand Baht) | 2,765,918 | 2,814,651 |
| Percentage of non-performing loans to total loans $^{(1)}$ | 1.76% | 1.89% |
| (1) | 1 | |

⁽¹⁾ The denominator base included interbank and money market items

Non-performing loans calculated based on the notification of the BoT. Those include sub-standard, doubtful and doubtful of loss, and exclude outstanding loans for which debt restructuring agreements have been made and which have already met the conditions for upgrading to pass or special-mention under the BoT's criteria.

10.6 Non-accrued loans to customers

As at 31 December 2016 and 2015, the Bank has the following loans to customers on which interest income recognition has been ceased on an accrual basis:

| | | Consolidated and |
|---|------------------|------------------|
| | Separate | separate |
| | financial | financial |
| | statements | statements |
| | 31 December 2016 | 31 December 2015 |

| Percentage of non-accrued loans to total loans ⁽¹⁾ | 1.78% | 1.92% |

⁽¹⁾ The denominator base included interbank and money market items

10.7 Loans to customers that have repayment problems or defaulted payments

As at 31 December 2016 and 2015, the Bank has loans to customers and accrued interest receivables due from companies and persons, which have repayment problems or defaulted payments, against which allowance for doubtful accounts, has been made as follows:

| (Unit: Thousand Baht) | | | | | | | |
|--|----------------------|-------------------------------|---------------------|---|--|--|--|
| | | Separate financial statements | | | | | |
| | | 31 December 2016 | | | | | |
| | Number of debtors | Debt balances | Collateral value | Allowance for doubtful accounts/Revaluation allowance | | | |
| Companies and persons that have repayment problems or defaulted payments | 306 | 3,911,927 | 3,098,981 | 745,957 | | | |
| | Co | nsolidated and | d separate finar | (Unit: Thousand Baht) ncial statements | | | |
| | | 31 | December 201 | .5 | | | |
| | Number of debtors | Debt balances | Collateral value | Allowance for doubtful accounts/Revaluation allowance | | | |
| Companies and persons that have repayment problems or defaulted payments | 459 | 3,799,590 | 2,822,801 | 826,696 | | | |

The Bank has inadequate information to disclose transactions in respect of companies whose auditors' reports indicate that there is substantial doubt about their ability to continue their business as a going concern, and unlisted companies whose financial position and results of operations are the same as those of listed companies delisting criteria. However, the Bank has taken into accounts the guidelines of the BoT in classification and provision for doubtful accounts.

13. Disposals of non-performing loans

In 2016 and 2015, the Bank entered into the sale and purchase agreements, as a seller, to sell nonperforming loans, are summarised as follows:

| | (Unit: Million E | | | | | | | |
|-------|------------------|----------------------|---------|----------|-------------------------------------|---------|--|--|
| | For the ye | ear ended 31 Decembe | r 2016 | For the | For the year ended 31 December 2015 | | | |
| | | Outstanding | | | Outstanding | | | |
| | | balances | | | balances | | | |
| | | (including relevant | Selling | Month | (including relevant | Selling | | |
| Batch | Month sold | other assets) | price | sold | other assets) | price | | |
| | | | | | | | | |
| 1 | September | 534 | 391 | June | 314 | 194 | | |
| 2 | December | 519 | 288 | December | 299 | 180 | | |
| | | 1,053 | 679 | | 613 | 374 | | |
| | | | | | | | | |

The Bank already received full payments under such non-performing loans sale and purchase agreements. Under the agreements, the buyer can cancel the transfer of any particular asset by no later than September 2017 (for the first batch in 2016) and December 2017 (for the second batch in 2016) in the event that the rights over the debt and the collateral of the sold assets cannot be transferred to the buyer because the documentation with respect to the debt and collateral is absent or incomplete, the collateral is evicted, or the courts do not permit the buyer to assume the rights of litigant from the Bank. Should the transfer of any assets be cancelled, the buyer is to receive the money back equivalent to the purchase price as settled on the settlement date while the Bank is to receive any income generated on such assets, after deducting any costs, during the period of cancellation. However, up to the authorisation date of these financial statements, the buyer has yet to cancel any assets sold.

⁽¹⁾ Counted as a part of Tier 2 capital, which is determined under the conditions as specified in the BoT's Notification.

22.1 Subordinated debentures

On 21 May 2015, the Bank issued 4 million units with a par value of Baht 1,000 each, totaling Baht 4,000 million of the subordinated debentures No.1/2558, to be counted as Tier 2 Capital. The subordinated debentures have a term of 10-year period, which matures in 2025 and carry interest at a fixed rate of 5.125% per annum, payable quarterly in February, May, August and November of every year. The Bank can early redeem the subordinated debentures after 5 years from the issuing date or under certain conditions.

25. Share capital

On 19 October 2015, the Board of Director's Meeting No. 10/2558 of the Bank passed a resolution approving the allotment of additional 100 million ordinary shares to LH Financial Group Public Company Limited, with par value of Baht 10 per share, totaling Baht 1,000 million. The Bank already received the payment of the additional shares on 27 October 2015. This allotment of additional ordinary shares was approved by the Annual General Meeting of Shareholders for year 2012.

Reconciliations of issued and paid-up share capital for the years ended 31 December 2016 and 2015 were as follows:

| | Consolidated and separate financial statements | | | | |
|---|--|--------------|---------|--------------|--|
| | For the years ended 31 December | | | | |
| | 2016 2015 | | | 015 | |

36. Earnings per share

Basic earnings per share is calculated by dividing profits for the years attributable to the Bank's shareholders (excluding other comprehensive income (loss)) by the weighted average number of ordinary shares in issue during the years.

37. Provident fund

The Bank and their employees have jointly established provident funds as approved by the Ministry of Finance in accordance with the Provident Fund Act B.E. 2530. The funds are monthly contributed to by employees, at the rate of 3 - 15% of basic salaries, and the Bank contribute at rates ranging from 3 - 7%, depending on the number of years of service of each employee. The funds will be paid to employees upon termination in accordance with the rules of the funds. During the years ended 31 December 2016 and 2015, the Bank contributed Baht 34.2 million and Baht 30.0 million, respectively, to the provident funds.

38.2 Commitments under long-term lease agreements

(a) As at 31 December 2016 and 2015, the Bank and its subsidiary entered into a number of long-term lease and service agreements for office building, equipment and motor vehicles. The terms of the agreements are between 1 and 9 years, under which future minimum rental and service fees, which are to payable by the Bank and its subsidiary, can be summarised as follows:

| | | | 1 |
|--------|--------|--------|-----|
| (Unit: | Millic | on Bal | ht) |

| | Consolidated | Sepa | irate |
|--------------------------|----------------------|------------------------------|-------|

| Payable within: | | | |
| Up to 1 year | 318 | 296 | 310 |
| Over 1 and up to 5 years | 347 | 293 | 332 |
| Over 5 years | 16 | 8 | 16 |

As at 31 December 2016 and 2015, the above commitments of the Bank included rental and service agreements with related parties amounted to Baht 113 million and Baht 180 million, respectively (31 December 2015: The Bank and its subsidiary have a total commitment totalling Baht 197 million.).

- (b) The Bank entered into various consultancy service agreements relating to software development and installation services. As at 31 December 2016 and 2015, the Bank is obligated to pay further Baht 10 million and Baht 9 million, respectively.
- (c) The subsidiary entered into various consultancy service agreements relating to software development and installation services. As at 31 December 2015, a subsidiary is obligated to pay further Baht 17 million. In addition, a subsidiary has committed under the agreement for permission to use computer programs to pay an annual maintenance fee at Baht 1.6 million for the year 2016 onwards. The agreements remain in effect until terminated by the subsidiary or either party breaches conditions stipulated in the agreements.

38.3 Service commitments

As at 31 December 2015, the subsidiary is required to pay license fees to the Office of the Securities and Exchange Commission with regard to the operation of businesses as follows:

- Management fee at the rates as specified and calculated based on the average month-end net asset value (NAV) of the fund.
- Registrar fee charged at a rate of 1 percent of registrar fee income.

The minimum total fee is Baht 500,000 per annum.

38.4 Obligation under the Employee Joint Investment Program (EJIP)

On 21 October 2013, the Board of Director's Meeting No. 11/2556 of the Bank passed a resolution approving the Employee Joint Investment Program (EJIP or Program) for its employees, with the following details:

| Period of EJIP | 1 January 2014 to 31 December 2018, with a total duration of 5 years |
|--------------------|---|
| Eligible employees | Management of Land and Houses Bank Public Company Limited with level |
| | of assistant vice president or equivalent onwards, who have passed |
| | probation periods and are not functioning in an acting capacity. |
| EJIP arrangement | Employee contribution at no more than 5 percent of the employee's basic salary. |
| | The Bank's contribution at 5 percent of the employees' basic salary. |

Execution Conditions for holding the securities Every month

Within the first three years, employees cannot sell any shares.After 3 years, employees can sell 25% of accumulated shares.After 4 years, employees can sell 50% of accumulated shares.After 5 years, employees can sell all shares.Upon resignation from the Program in any circumstances, employees can sell all of the shares immediately.

The Program was approved by the Office of the Securities and Exchange Commission on 7 January 2014 and the Bank contributed to the Program members and recognised these contributions as employee expenses for the years ended 31 December 2016 and 2015, of Baht 7.1 million and Baht 7.4 million, respectively.

38.5 Litigation

As at 31 December 2016 and 2015, the Bank was sued in many litigation cases being claimed for compensations totaling Baht 845 million and Baht 33 million, respectively. Final judgments have not yet been reached in respect of these cases. The management of the Bank has exercised judgment to assess the outcome of the cases and is confident that it will not incur any significant loss and therefore contingent liabilities on such litigation cases are not provided.

39. Related party transactions

The Bank and its subsidiary had significant business transactions with their related parties, including transactions with directors, executive or other persons with equivalent position, including entities that the persons or related persons have management authorities, or entities in which the Bank and its subsidiary or directors or such executives hold in aggregate of more than 10 percent of the paid-up share capital of those entities.

Relationship with related parties can be summarised as follows:

- 1. The Bank's parent company is LH Financial Group Public Company Limited.
- 2. The subsidiaries of the Bank's parent company are as follows:
 - 2.1 Land and Houses Securities Public Company Limited
 - 2.2 Land and Houses Fund Management Company Limited
 - 2.3 Land and Houses Advisory Company Limited (the subsidiary of the company as stated in No. 2.1 above)

As described in Note 9 to the financial statements that Land and Houses Fund Management Company Limited ("LH Fund") had been the Bank's subsidiary until 29 February 2016 and has become the parent company's subsidiary since 1 March 2016. However, for comparability of related party transactions with LH Fund, those transactions are therefore presented under the same line item of "Subsidiaries of the Bank's parent company" in these financial statements.

รายงานประจำปี ๒๕๕๙ ANNUALREPORT 2016

- 3. Any persons or companies who hold more than 10 percent of shares in the Bank's parent company ("the major shareholders of the Bank's parent company") are as follows:

39.4 Directors' and executives' compensation

During the years ended 31 December 2016 and 2015, compensations incurred on directors and executives of the Bank and its subsidiary, which was recognised in profit or loss, was classified as follows.

| | | | (Unit | : Million Baht) |
|------------------------------|----------------------|------|---------------------|-----------------|
| | Consolidated | | Separate | |
| | financial statements | | financial statement | |
| | For the years ended | | For the years ended | |
| | 31 December | | 31 December | |
| | 2016 | 2015 | 2016 | 2015 |
| | | | | |
| Short-term employee benefits | 100 | 106 | 97 | 95 |
| Post-employment benefits | 11 | 6 | 11 | 5 |
| Total | 111 | 112 | 108 | 100 |

Directors and executives of the Bank and its subsidiary are directors, president, vice president, first executive vice president, heads of department and assistant heads of department.

40. Interest in investment funds which are structured entities

The subsidiary providing fund management services to a number of investment funds, which meet the definition of structured entities. The subsidiary holds interests in these structured entities through the receipt of management fees from these funds.

As at 31 December 2015, based on the latest available financial reports of the funds under the subsidiary's management, which meet the definition of structured entities, the total net asset values of those funds are approximately Baht 23,403 million.

The Bank and its subsidiary's interest in those funds are shown below.

| | (Unit: Million Baht) |
|-------------------------------------|----------------------|
| | 31 December 2015 |
| | |
| Fees and service income receivables | 8 |
| Deposits at banks | 377 |

(Unit: Million Baht)

| _ | For the years ended 31 December | | |
|--|---------------------------------|------|--|
| _ | 2016 | 2015 | |
| Fees and service income - mutual fund management | 23 | 85 | |
| Interest expenses | 2 | 3 | |

The maximum risk exposure of the Bank and its subsidiary are equal to the interest as shown above.

41. Operating segments and discontinued operations

The Bank and its subsidiary have two principal operating segments: banking business and fund management business and they operate their businesses in Thailand. For management purposes of the banking business, the Executive Board of Directors of the Bank has been identified as the chief operating decision maker, and the operating segment is divided into the lending segment (housing and retail, and other loans) and other segments.

The Executive Board of Directors monitors the operating results of the business units separately for the purpose of making decisions about resource allocation and assessing performance. The Bank and its subsidiary measure segment performance based on operating profit or loss and total assets, and on a basis consistent with that used to measure operating profit or loss in the financial statements. In addition, recording for inter-segment is reported on a basis consistent with external customers.

41.1 Discontinued operations

On 1 March 2016, the Bank disposed its investment in Land and Houses Fund Management Company Limited, which was a subsidiary, and has already received payment on such disposal.

The operating results and cash flow of the subsidiary for the years ended 31 December 2016 and 2015 are as follows.

The Bank and its subsidiary operate in Thailand only. As a result, all of the revenues, profits and assets as reflected in these financial statements pertain to the aforementioned geographical reportable. Moreover, during the years ended 31 December 2016 and 2015, the Bank and its subsidiary have no major customer with revenue of 10 percent or more of the consolidated revenues.

42. Financial instruments

Financial instruments are any contracts which give rise to both a financial asset of one enterprise and a financial liability or equity security of another enterprise.

The Bank and its subsidiary's financial instruments, as defined under Thai Accounting Standard No.107 "Financial Instruments: Disclosure and Presentations", principally comprise cash, interbank and money market items, derivative assets/liabilities, investments, loans to customers, accounts receivable on sales of securities, deposits, liabilities payable on demand, debts issued and borrowings and accounts payable on securities trading.

The Bank and its subsidiary's risk management policies, principally Bank's manage and control risk to be within an acceptable level. These policies are annually reviewed for reflecting of the risk from environmental change, and the risk from internal and external factors as follows:

42.1 Credit risk

Credit risk is the chance or probability that debtors or counterparties will not be able to meet their obligations including from chance in credit risk of counterparties is downgraded and the risk of deterioration of investment or credit quality and unable to adjust the price to compensate for the additional risk, which may affect the revenues and capital funds of the Bank.

Credit risk is recognised as highly significant to financial institutions, especially those associated with credit transactions, which are the core transactions of the Bank, both in terms of loans and commitments. Maximum exposure to credit loss of the Bank is the carrying value of loans to customers, including commitments in respect of provisions of guarantees, avals or other types of guarantee with similar characteristics.

The Bank manages credit risk by imposing on credit granting in order to control, detect and reduce the risk of credit transactions. Criteria of credit granting must be considered from various conditions such as target market, business type, loan type, transaction type, loan limit to each debtor to reduce the risks of concentration of credit, collateral to decrease credit risk and person or corporate that the Bank doesn't support. Moreover, the Bank has key risk management measurements, include the following:

ธนาคารแลนด์ แอนด์ เอ้าส์ จำกัด (มหาชน) LAND AND HOUSES BANK PUBLIC COMPANY LIMITED

(a) Risk identification

The Bank considers factors that are relevant to a borrower and the borrower/ counterparty's business, and external factors that may adversely impact the revenues and the operations of the borrower/counterparty. It also monitors changes in credit quality and historical payment trends, which help provide the picture of asset quality and credit risk. In addition, the Bank conducts reviews of borrower risk level and their alignment with the identified risk factors.

(b) Risk measurement

The Bank has developed tools to measure credit quality. These are a Credit Rating Model, which is used to assign credit ratings to corporate banking customers, and a Credit Scoring Model which is used for personal banking customers. Both tools were developed by the risk management department in order to reduce the use of judgment by credit approvers during the credit approval process.

(c) Risk monitoring and reporting

The Bank has developed a process of monitoring counterparties' credit risk, so that it is aware of the current size and level of risk associated with its borrowers. Financial reviews and customer visits are required to be carried out at least annually, and the value and liquidity of collateral is appraised, the status of borrowers and their compliance with conditions are reported to executives on a regular basis.

(d) Risk control and mitigation

The Bank sets credit concentration limits at the industry level, and individual client level, in order to ensure the Bank's risk exposure to a particular industry or client is not excessive. If a limit is reached, the responsible department is to investigate the reason of an abnormal circumstance, in order to maintain risk exposure within acceptable parameters. The Bank also has internal control and audit procedures in place to ensure that its risk management is in accordance with the frameworks and processes laid down by the Bank.

Furthermore, the Bank conducts stress testing that covers credit risk at least annually, in order to forecast potential losses on individual accounts or counterparties and on different types of credit in its portfolio, and consider whether the resulting deterioration in credit quality within its portfolio would affect its capital adequacy and its current loan provisions, so the Bank will be able to take timely action to mitigate the risk.

42.2 Market risk

Market risk is the risk that the value of assets, liabilities and commitments will change as a result of fluctuations in interest rate, securities prices, commodity prices and exchange rates. The Bank operates Thai Baht currency exchange services, with both of buying and selling services. The Bank has determined foreign currency position at the end of day not more than amount permission by the BoT. The Bank and its subsidiary's market risk consists of interest rate risk, foreign exchange risk and equity position risk.

(a) Interest rate risk

Interest rate risk is the risk that volatility in market interest rates will result in changes in the value of financial instruments, or fluctuations in income or the value of financial assets and liabilities. Interest rate risk is a consequence of the structure and the nature of the items in assets, liabilities, and equity, and mismatches between the maturities and the repricing terms of assets and liabilities.

Most of the Bank's assets consist of deposit at financial institutions, loans to customers and held-to-maturity debt securities, and its liabilities mainly consist of deposits from individuals. These key items may be affected by interest rate fluctuations, and whenever such fluctuations occur the Bank is exposed to the risk that its income, expenses and/or economics value (equity value) may be affected. The Bank therefore needs to manage interest rate risk in its banking books in order to mitigate the impact.

Interest rate risk in its banking books adversely affects the income or capital adequacy of the Bank as fluctuations in interest rates impact all rate-sensitive assets, liabilities and commitments. The cause is maturity mismatch and repricing risk for assets and liabilities in the Bank's statements of financial position.

The nature of the Bank's exposures to interest rate risk in the banking book are as follows:

(1) Repricing Risk

This arises due to mismatches between the maturities of assets and liabilities, or when interest rate reset dates are not matched.

(2) Basis Risk

This arises because change of reference interest rates of assets and liabilities are not matched.

(3) Option Risk

The Bank has option risk in financial contract both debtor and creditor that counterparties have right to change payment plans or redemption from the original plan when the market rate is changed. Rights holders will exercise when it is in an unfavorable position as the original payment plan. So it makes cost of interest, return or net interest income including assets and liabilities' structure in statements of financial position changed for the worse.

The Bank has developed interest rate risk measurement tools to evaluate interest rate risk in the banking books. The Bank sets risk limits in order to keep risk levels within stipulated parameters and to report risk levels to Asset and Liability Committee on a monthly basis.

Moreover, the Bank performs stress tests by simulating an interest rate crisis, using simulations provided by the BoT and/or appropriate simulations it has established itself.

As at 31 December 2016 and 2015, financial assets and liabilities, classified by types of interest rate, are as follows:

| | Consolidated financial statements | | | | | | |

(b) Foreign exchange risk

Foreign exchange risk is the risk that changes in foreign exchange rates may result in changes in the value of financial instruments, and fluctuations in revenues or the values of financial assets and liabilities.

Since the Bank has foreign exchange transactions, it may be exposed to foreign exchange risk. The Bank operates Thai Baht currency exchange services, with both of buying and selling services. The Bank has determined foreign currency position at the end of day not more than amount permission by the BoT, so the Bank has insignificant foreign exchange risk. The status of the Bank's foreign currency balances as at 31 December 2016 and 2015 are as follows:

| | | | | (Unit: Thou | usand Baht) |

(c) Equity position risk

Equity position risk is the risk that changes in the market prices of equity securities may result in changes in the value of investments, and fluctuations in revenue and the value of financial assets.

The maximum equity position risk exposure is the carrying value of investments in equity securities as presented in the statements of financial position.

42.3 Liquidity risk

Liquidity risk is the risk that the Bank and its subsidiary will be unable to liquidate their financial assets and/or procure sufficient funds to discharge their obligations in a timely manner, resulting in the Bank and its subsidiary incurring a financial loss.

The Bank manages their liquidity risk by performing through net liquidity status report or liquidity gap analysis. The Bank's analysis has two components, which are a Contractual Liquidity Gap report and a Behavior Liquidity Gap report, that analyse the net liquidity status at each point in time and consider the cash flow adequacy over the next year. Moreover, the Bank assesses liquidity risk based on the accumulated outstanding net liquidity by maturity, adjusted to reflect depositor behaviour, in order to maintain liquidity risk at the appropriate levels stipulated by the Bank.

The Bank conducts a study of the effect on liquidity of various factors, such as early deposit withdrawal and deposit rollover, by creating simulations incorporating normal scenarios and stress scenarios which cover the effect of liquidity management of the Bank. The Risk Management Department is responsible for carrying out the study and reporting the results to Asset and Liability Committee, which measures liquidity requirements under each scenario, and provides a framework for establishing contingency plans.

In addition, the Bank also monitors its liquidity risk relating to regulation of maintaining liquid assets for supporting crisis situation (Liquidity Coverage Ratio: LCR), which determines assumptions for total cash inflows and outflows to reflect withdrawal behavior of each counterparty and transaction type both on/off balance sheet items, which are affected by different cash flow indicators. The assumptions should also reflect the business group structure that the group's commercial banks may need to help their liquidity in a severe and continuous cash outflow crisis. Therefore, the Bank sets risk limits for monitoring its liquidity risk levels, which enable the Bank to maintain appropriate amounts of liquid assets and efficiently cope with fluctuations in cash inflows and outflows.

The periods to maturity, counting from the financial position dates, of financial instruments outstanding as at 30 June 2016 and 31 December 2015 are as follows:

⁽¹⁾ As at 31 December 2016 and 2015, these amount included contracts with no maturity date amounting to Baht 1,241 million and Baht 1,092 million, respectively.

43. Fair value of financial instruments

The Bank use the market approach to measure their assets and liabilities that are required to be measured at fair value by relevant financial reporting standards, except that the cost approach or income approach is used when there is no active market or when a quoted market price is not available.

43.1 Fair value hierarchy

In applying the valuation techniques, the Bank endeavor to use relevant observable inputs as much as possible. TFRS 13 Fair Value Measurement establishes a fair value hierarchy categorising such inputs into three levels as follows:

- Level 1 Use of quoted market prices in an observable active market for such assets or liabilities
- Level 2 Use of other observable inputs for such assets or liabilities, whether directly or indirectly
- Level 3 Use of unobservable inputs such as estimations of future cash flows

43.2 Assets and liabilities measured at fair value

As at 31 December 2016 and 2015, the Bank had assets that were measured at fair value using different levels of inputs as follows:

| | | | | (Unit: Th | ousand Baht) | |
|--|--------------------------------|-----------|------------------|-----------|--------------|--|
| | Separated financial statements | | | | | |
| | | 31 | December 20 | 16 | | |

| Total available-for-sale investments | 1,135,554 | 1,135,554 | - | - | 1,135,554 | |

During the current year, there was no transfer within the fair value hierarchy.

43.3 Financial assets and liabilities for which fair values are disclosed

As at 31 December 2016 and 2015, the Bank had financial assets and liabilities that were measured at cost, and for which fair values are disclosed using different levels of inputs as follows:

| | | | | (Unit: Tł | nousand Baht) | |
|--|-------------------------------|------------|--------------|-------------|---------------|--|

| Financial liabilities for which fair value | <u>25</u> | | | | | | |
| are disclosed | | | | | | | |
| Deposits | 137,300,095 | 56,365,290 | 81,011,959 | - | 137,377,249 | | |
| Interbank and money market items | 20,665,872 | 1,300,752 | 19,372,544 | - | 20,673,296 | | |
| Liabilities payable on demand | 176,517 | 176,517 | - | - | 176,517 | | |
| Derivative liabilities | 5,395 | - | 22,117 | - | 22,117 | | |
| Debts issued and borrowings | 21,820,500 | - | 21,849,855 | - | 21,849,855 | | |

The methods and assumptions used by the Bank in estimating the fair values of financial instruments are as follow:

- (a) The fair values of financial assets and liabilities, which have short-term maturity periods or bear interest at rates close to market interest rates (i.e. cash, accounts receivable on sales of securities, liabilities payable on demand and accounts payable on securities trading), approximate their carrying values.
- (b) The fair values of investments in debt securities are determined based on the yield rates quoted by the Thai Bond Market Association.
- (c) The fair values of non-marketable equity securities are determined based on generally accepted pricing models.
- (d) The fair values of loans to customers and interbank and money market items (assets) that bear floating interest rates are assumed to approximate their carrying values, net of allowance for doubtful accounts and revaluation allowance for debts restructuring. The fair values of loans to customers and interbank and money market items (assets) that bear fixed interest rates are the present value of the expected future cash flows, discounted by the interest rates the Bank offer on similar loans. The fair values of non-performing loans are the present value of the expected future cash flows from the disposal of the loan collaterals, discounted by the rates and durations as referred in the BoT's guidelines regarding provision.
- (e) The fair values of deposits and interbank and money market items (liabilities) that are payable on demand or bear floating interest rates are assumed to approximate their carrying values. The fair values of deposits and interbank and money market items (liabilities) that bear fixed interest rates are determined by discounting the expected future cash flows at the Bank's announced interest rates for deposits of similar characteristics.
- (f) The fair values of derivative assets/liabilities are determined using fair values obtained from its counterparties, who are banks.
- (g) The fair values of debts issued and borrowings that are subordinated and unsubordinated debentures are determined using yield rates quoted by Thai Bond Market Association. The fair values of debts issued and borrowings that bear fixed interest rates are determined by discounting the expected future cash flows by market interest rates on borrowings of similar conditions.

44. Approval of financial statements

These financial statements were authorised for issue by the Bank's Board of Directors on 20 February 2017.
